## HAS WAY TO AID WHEAT FARMER

Gov. R. A. Nestos Of North Dakota  
Recommends Establishment Of  
Governmental Agency

### AT GOVERNOR'S CONFERENCE

Issue Of Farmers' Relief Pushes  
Prohibition By Board At Today's  
Sessions

By EDWARD C. DERR  
(U. P. Staff Correspondent)

West Baden, Ind., Oct. 18.—The wheat farmer of the midwest faces utter ruin unless some immediate remedy is found for his economic difficulties, Governor R. A. Nestos of North Dakota declared today in an address before the governor's conference here.

The north Dakota executive recommended the establishment, to avoid further delay, of a governmental agency, possibly under the war finance corporation, with full authority to segregate the exportable surplus of the wheat crop and sell it in the world markets at the best terms obtainable.

This agency, he said, would be expected to cooperate with the American Farm Bureau Federation and the American Wheat Growers association in relieving the farmers.

"The plight of the wheat farmer is so serious," he said, "that unless relief comes at once thousands of farmers will lose, or will be driven from their lands and disaster will overtake many of the communities and cities of the wheat growing sections of the country."

The issue of farmer's relief pushed the prohibition question by the boards in the session. Prohibition has not yet been formally taken up for consideration by the governors and only once or twice has it been mentioned during the deliberation of the assembly.

"Far more important to the welfare of the country than prohibition, is the danger of absolute bankruptcy facing the farmers," declared Governor Walker of Georgia.

"Before we talk of further steps to tighten the prohibition enforcement, laws we must fight out what we are going to do for the farmer."

The conference got away to a late start yesterday. The first session was scheduled to be called to order at 2 o'clock, but the auto caravan did not reach here from Indianapolis until late in the evening.

A heavy rain and slippery roads delayed the progress of the government.

## ATTENDANCE LIKELY TO BREAK RECORDS

First Business Session of Indiana  
State Teachers Association  
Scheduled for 5 P. M.

### 30 SECTIONAL MEETINGS

(By United Press)

Indianapolis, Ind., Oct. 18.—With the holding of more than 30 sectional meetings, the seventeenth annual convention of the Indiana State Teachers Association began here today.

Early indications were that the record for last year, when more than 13,000 teachers from all parts of the state were in attendance, would be broken.

The first general business session will be held at the Cadle Tabernacle at 5 o'clock this afternoon. Following the general session, congressional district meetings will be held at which a vice-president, and members of the nominating committee will be selected.

Chief interest centered in the election of a president to succeed Miss Elsa Huebner, of Indianapolis. The names of Benjamin Barris, Indianapolis, and W. A. Denny, superintendent of the Anderson schools, were most frequently heard for the post.

A harmonious business session was predicted by leaders of the association. Attempts to change the constitution of the association which threatened to disrupt the organization two years ago were dropped last year by mutual consent of all factions.

## TWO HOG SALE SUCCEEDS

Poland China And Peligreed Duroc  
Auctions Held Wednesday

A Poland China hog sale and a pedigreed Duroc sale were held in Rush county Wednesday, and at each sale a large attendance was reported and good prices prevailed at each place. The Charlie J. Fisher Duroc sale, which was held at his farm southeast of Rushville, was the fourth annual event and 53 head was offered for sale which averaged \$23.65. Mr. Fisher, who lives in Rushville, stated that the sale was a big success from all angles.

The B. V. Miller and Sons sale of Poland China hogs was held yesterday at the farm five miles west of here, when 53 head of the big type hogs were offered for sale, and the average was \$26.50, which was considered very good by the owners. They also reported a good crowd, and were well pleased with the results.

## NOT TO BE TRIED IN THIS COUNTY

Change Of Venue Granted In Case  
Of Gertrude Williams Against  
Peoples National Bank

### NO COUNTY DESIGNATED YET

Claim Of \$1,800 Against Michael  
Oneal Estate Dismissed By Agree-  
ment Of Parties

The law suit of Gertrude Williams against the Peoples National bank, Earl H. Payne and Ralph Payne, in which the plaintiff demands \$8,500 as judgment on notes, alleging a conspiracy, will not be tried in this county, as the defendant the Peoples National bank, has been granted a change of venue.

The court has not designated any county for the case to be tried in but will send it to some adjoining county in a few days.

The motion for a change of venue was based on allegations that there was prejudice existing in this county, and that the parties concerned could not receive a fair and impartial trial.

In the complaint of Cynthia White against Zona White in which the defendant filed a motion for a change of venue a few days ago, the court has selected Henry county for the change, and the defendants are given 5 days in which to perfect the change.

The complaint of Carl Oneal against Edward T. Oneal, executor of the estate of Michael Oneal, a claim amounting to \$1,800 against the estate, has been dismissed in court by agreement of the parties.

The jury has been ordered for services again Friday, after having been called Wednesday and not used.

## DEALS WITH KLAN IN A GENERAL WAY

Resolution Before American Legion  
Convention Refers to Un-American  
Organizations

### ONE ENDORSES FRENCH STAND

(By United Press)

San Francisco, Calif., Oct. 18.—The Ku Klux Klan issue in a general form, was sent to the floor of the American Legion convention here today.

The resolution declared: "We consider any individual, group of individuals or organizations which create or foster racial, religious or class strife among our people or which takes into its own hands the enforcement of the law, the determination of guilt or infliction of punishment, to be un-American, a menace to our liberties and destructive to our fundamental laws."

"We consider such action by an individual, group or organization to be inconsistent with ideals or purposes of the American Legion."

The resolution committee also reported out a resolution to appoint a committee to study the plan for permanent world peace and report back to next year's convention and a resolution endorsing France's occupation of the Ruhr.

## TAXES IN 1924 WILL BE LARGER

Amount to be Collected Next Year is  
\$1,011,133.96 Compared with  
\$961,479.78 This Year

### AN INCREASE OF \$49,654.18

Sums Collectable From Each Tax-  
payer in County Computed by  
Auditor Since September 24

Taxes collectable in Rush county next year amount to \$49,654.18 more than this year, according to a compilation of taxes payable in 1924, in each taxing unit in the county, completed at the county auditor's office.

Taxes falling due this year amounted to \$961,479.78, according to the records in the county treasurer's office, and next year the taxes to be collected amount to \$1,011,133.96.

The 1924 taxes of every person in Rush county have been computed by the county auditor, Phil Wilk, and his deputy since September 24, when the rates in each taxing unit were certified to the auditor by the state board of tax commissioners.

Although the auditor is not required to have the taxes computed before the first of the year, when the first installment falls due, he and his deputy went to work on their task as soon as the rates were definitely established, and finished it up two and one-half months ahead of time.

Although only six of the fifteen taxing units in the county increased their rates for 1924, property valuations on which taxes are paid were increased over a half million dollars.

### Attention Called to Hours For Burning Leaves in City

Attention to a city ordinance, regulating the hours for burning leaves within the city, was called today by Joe Williamson, fire chief, who issued a warning to violators of the law. No leaves shall be burned after two o'clock in the afternoon, the ordinance says, and burning them on paved streets is forbidden. Leaves lighted after two o'clock may smoulder into the night, and cause a serious fire if neglected. The smoke clouds hang low after two o'clock, and also is injurious to the health of the people.

### Stick To Your Knittin', Edison's Advice to Ford

New York, Oct., 18.—"Henry Ford ought to stay where he is; to make his president would be spoiling a good man."

"Automatic machinery will probably bring a four hour working day and that will be a bad thing."

The radio craze will die out unless some way is found to take the 'frying' noise out of the music."

These are opinions of Thomas Alva Edison, who is in New York attending the electrical show at the Grand palace.

Radical President Of Saxony Defies  
Dictator, Refusing To Disavow  
Radical Speeches

By CARL D. GROAT  
(U. P. Staff Correspondent)

Berlin, Oct. 18.—The minister of defense this evening instructed General Mueller in Dresden to use police only to dissolve the Saxon communist "Red hundreds."

The order was interpreted as a complete backdown by the federal government which had previously threatened to use the army.

Mueller was instructed to hold his troops in reserve. The order came only after several hours debate between government leaders. A section of the cabinet, it was understood favoring letting Mueller go ahead in using the act to enforce federal supremacy in Saxony.

The radical minister president of Saxony, Dr. Zeigner today openly defied the demands of the federal dictator of the Dresden district, General Mueller.

He opposed answering the general's letter demanding the Saxon cabinet disavow the fiery speeches of Saxony Finance Minister Boettcher.

Zeigner declared in the diet he was read to fight for a dictatorship of the proletariat.

Zeigner read the letter from General Mueller demanding disavowal to the diet, asserting he objected to such attempts at interference with his government.

Foreign Fields

The annual meeting of the Women's Foreign Missionary Society of the Connersville district, which was held at the Methodist church in Milroy, Tuesday afternoon and Wednesday of this week, closed their sessions with the installation of officers, by Dr. J. M. Walker, who is superintendent of the Connersville district of the Methodist Episcopal church.

The officers installed were Mrs. Ward, of Laurel, president; Mrs. Hiner Hunt, of Liberty, recording secretary; Mrs. C. A. Dugal, of this city, treasurer; Mrs. Montgomery, of Shelbyville, corresponding secretary; Mrs. D. O. Black, of College Corner, secretary of Young People's Work; Mrs. Harper, of near Connersville, superintendent of Children's work. The following group leaders were also installed: Mrs. John Driscoll, of Bath, leader of College Corner group; Mrs. M. S. Taylor, of East Connersville, leader of Connersville group, which includes this city; (Continued on Page Three)

## CIVIL WAR VETERAN DIES

John Hackleman, 78, expires At  
Home In Milroy

John Hackleman, age 78 years, a veteran of the Civil War, died Wednesday night at ten o'clock at his home in Milroy, death resulting from a prolonged illness with a complication of diseases, caused by advanced age.

The deceased was a well known resident of Milroy, where he had spent practically all of his life. He is survived by a sister, Miss Sarah Hackleman, with whom he made his home, and another sister, Mrs. Amanda Osterling, living west of Milroy. The deceased was never married.

The funeral services will be held at the late residence in Milroy on Friday afternoon at two o'clock, in charge of the Rev. Mr. McColgin, and burial will be made in the cemetery at Milroy.

## BELIEVES SON TOOK HIS CAR

John H. Coers of Morristown Re-  
ports Disappearance of Automobile

John H. Coers, a deaf and dumb resident of Morristown, was here Wednesday afternoon consulting with Sheriff Hunt in regard to his automobile that he believed was wrecked east of this city and abandoned. The machine was not located, but it was learned from that vicinity that a son of Mr. Coers was in company with a young lady of that vicinity last Friday night, when the machine met with an accident near Homer. After a further investigation at Homer, it was learned that the son had the machine repaired and drove it away. Mr. Coers left the impression with Sheriff Hunt that his son had taken the machine and left for Detroit, where he was formerly employed.

### BUSINESS MEN AWAKENED

Believe Englishman's Tour Will Re-  
sult in New Understanding of  
Europe's Troubles

By LAWRENCE MARTIN  
(Copyright, 1923, by United Press)

Chicago, Oct. 18.—Lloyd George's American tour today began to bear fruit in the organization here of a movement to carry on, after he departs, the campaign he has set in motion for American participation in a practical, business like settlement of the world's troubles.

One of the first efforts of those who want to take advantage of such sentiment as Lloyd George is creating in this country for such American participation will be directed towards getting the Coolidge administration at Washington more actively interested.

Lloyd George has made a deep impression on some of the unobtrusively influential men of the middle-west. They are men who are on the inside of things, but who do not seek the limelight. They work quietly, but effectively and their influence will be brought to bear in Washington.

They believe Lloyd George's visit will result in a new American understanding of the European situation and a consequent demand that America aid in a world settlement, in the interests of American commerce and industry.

The first step in this, as Lloyd George has pointed out in virtually all the speeches he has made on this continent, is to settle the reparations (Continued on Page 6)

## THIRTY-EIGHT AT DENTISTS MEETING

Semi-Annual Session Of Eastern In-  
diana Society One Of The Best  
Ever Held

### NEXT MEETING AT LIBERTY

The Eastern Indiana Dental society which met here Wednesday in semi-annual session, enjoyed one of the best programs on record, according to those who attended, and the number of dentists attending was 38, which was more than expected on account of the weather.

The session closed last night with an illustrated lecture by Dr. Victor H. Hilgemann of Fort Wayne, and the address was one of the best of its kind ever delivered to the association.

The sessions began here in the afternoon and closed with the night program. The society held forth at the K. of P. hall, and the Pythian Sisters served a bountiful banquet at six o'clock.

The next meeting of the dentists will be held at Liberty in April. No officers were elected at the meeting here, as each officer serves for two meetings, and the officers will not be elected until the Liberty meeting.

## MOTOR TITLE LAW PUTS STATE FIRST

Indiana Tied For First Place in  
Holding Record For Lessening  
of Automobile Thefts

### ROBERT HUMES IN REPORT

Rushville Man, Head of State Police,  
Gives Advice to People Who  
Have Machines Stolen

The certificate of title act, as passed by the general assembly of 1921, has accomplished far more than expected in the short time that it has been a law, according to Robert T. Humes of this city, who is chief of the state motor police, with headquarters in the state house at Indianapolis.

This act was written and made a law so as to make it difficult for auto thieves to operate in this state, and hence to lessen the number of motor vehicles stolen annually, according to Mr. Humes, who has contributed an article this month to the "Indiana Highways and Motors" magazine.

A portion of his article appearing in this issue, relates the following:

The Auto Protective and Information Bureau of Chicago, the largest clearance house in the country, rates Indiana as tied with Minnesota and New Mexico for first place with Michigan and Missouri tied for second, in percentage of stolen cars recovered. Michigan, Missouri and Minnesota have a title law.

The largest handicap that the State police have in recovering cars is the fact that our neighboring states, except Michigan, do not have a motor title law. This means that the cars stolen in this State are taken out of the State and sold. However, stolen cars coming into this State from other states are quickly recovered and returned to owners.

Although most of the motorists of this State are familiar with the inside workings of the auto theft department, many are not well enough acquainted so as to make the best use of it. The following instructions should be carried out in case your car is stolen.

What to Do if Your Car Is Stolen

1. Notify the nearest police officer.
2. When reporting your car stolen be able to give full description of car, especially engine number, serial number, if any, and license number.
3. Place an identification mark on

## BAD WEATHER CUTS DINNER ATTENDANCE

Crowd at Rush County Horse Thief  
Detective Association Meeting  
Reduced by Rain

### FRITCH COOPER ENTERTAINS

Bad weather cut in on the attendance at the pitch-in dinner and meeting of the Rush county company of the National Horse Thief Detectives association, which was held at the coliseum in Memorial park today.

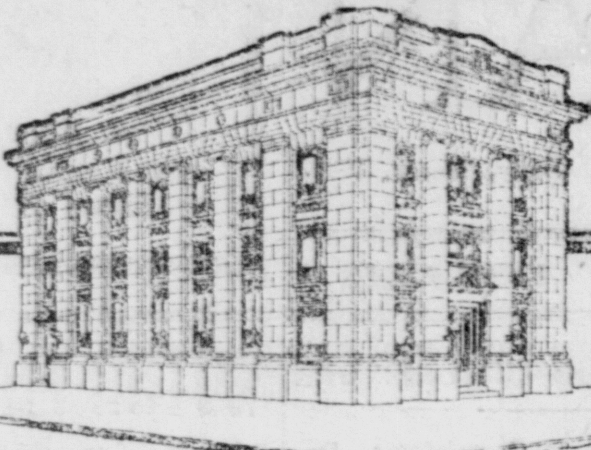

Fritch Cooper of Elwood, Ind., who has appeared before the local organization before, was to give an entertainment this afternoon and short talks by local members were to compose the remainder of the program. Mr. Cooper is a versatile entertainer, being able to play on a number of musical instruments, and he also tells stories well.

The pitch-in dinner was served during the noon hour and was enjoyed by a crowd estimated at near four hundred people.

This is the first meeting of this character ever held by the Rush county association and it is likely that it will be made an annual affair. In the past the organization has given an annual dinner, but the membership has increased to such proportions that it was found impossible to get a place large enough to hold the dinner.

Today was selected as the date because the schools of the county were dismissed on account of the Indiana State Teachers association being in session, which allowed members to bring their families. The rain, however, reduced the attendance appreciably.

# Why Do Hogs Root?

HOGS don't root merely "for the fun of it." They are after something that their present ration lacks. And every day they root, they are NOT putting on weight as fast as they otherwise would—they are cutting down your profits.

Ringling is not the profitable way to stop rooting—ringing does not get at the causes. A ringed hog WANTS to root just as much as ever—for he still needs essential, body-building mineral elements to balance his ration.

KINGSBURY'S Mineral Hog Feed gives your hogs the very mineral elements they need to build bone and tissue—the very elements that they seek in rooting. Rich in phosphorus, sulphate of lime, calcium and other important minerals—based on Purdue's formula—KINGSBURY'S Mineral Feed insures bigger frame, higher vitality, better appetite and more rapid gain in weight.

Give your pigs a chance to make the most money for you! Let them have the minerals which will build a BIG FRAME. You can put more weight on a big-frame hog. Get that extra profit! Buy a bag of KINGSBURY'S Mineral Hog Feed from your dealer at once.

KINGSBURY'S is an accurately-mixed mineral ration ready for your self-feeder. And you can get it at the right price—no fancy canvassers' selling commissions to pay, no long-distance freight rates and warehouse charges. Your own, dependable dealer has KINGSBURY'S. See him!

ors from the Hoosier capital.

Sentiment of the governors toward the question of prohibition was shown in their applause when Governor Hardee, of Florida, declared that America is now essentially dry, despite the number of liquor law violations reported throughout the nation.

Governor Hardee predicted that within a few years violations of the eighteenth amendment would be a thing of the past.

The governors generally, in informal discussions, admitted that prohibition enforcement in their respective states was not all it ought to be, but attributed this condition to lack of sufficient funds to carry on the work rather than to any lack of zeal on the part of the prohibition enforcement officials in the prosecution of their task.

Governor McCray, in welcoming the visiting executives, said the word "Hoosier" was a synonym for hospitality, and told them the state was theirs during their stay.

Governor McMaster, of South Dakota, responded to the address of welcome.

MOTOR TITLE LAW  
PUTS STATE FIRST

Continued From Page One  
your car in some obscure place, or manner, so if your car is recovered and all numbers and identifications are gone you will have a positive way of identifying your car.

4. Report should be made to Robert T. Humes, Chief of the State Motor Police, Room 107 State House, by all city police, sheriffs and other peace officers throughout the State of Indiana. Furthermore, all motorists should report instantly the theft of their car to this same source. In other words, the State Auto Theft Department is the clearing house for auto theft information in Indiana and if this information is supplied promptly and thoroughly it will then be compiled, printed and distributed over the United States to various police departments. Furthermore, if such information is returned promptly, information from one part of the State will dovetail into information received from another part of the States which, when put together, immediately solves the riddle, whereas neither bit of information alone is sufficient to lead to recovery of the car or the capture of the thief.

5. The finding of an abandoned motor vehicle should be reported to this department the same as the theft of your car, because it is someone's car.

6. Whenever circumstances surrounding an automobile are suspicious, indicating that this car might be stolen, report of it should be made to the State Auto Theft Department.

7. This department is for the motorists of the State. Use it as you should and not only help yourself but help us to serve you better.

8. If your car has been stolen and later recovered do not be satisfied with getting your car back. If the thief is found with the car, regardless of where he is, file an affidavit against him, or them, and the State police will go after them and return them to this State for trial without expense to you. If you allow the thief to go free it allows him to steal your or someone's car again. Convict all the thieves and you solve the auto theft trouble.

NEXT MEETING  
GOES TO LIBERTY

Continued from Page One  
Mrs. McCartney of Shelbyville, leader of the Shelbyville group; and Miss Rebecca Daily, of Greensburg, leader of the Greensburg group.

During the business meeting held Wednesday afternoon, Liberty was chosen for the convention city next year, and the committees made their reports. Two splendid addresses were also given during the session by the two missionaries who were present at all the sessions, Miss Myrtle Wilson, of Central Africa, and Miss Belle Overman, of Korea.

On Tuesday evening the feature entertainment was the pageant given by the Standard Bearers of Waldron. It was pronounced very good by those who were present, and the Waldron young people were very highly praised for the production. The church was crowded with people, mostly young people, for this service.

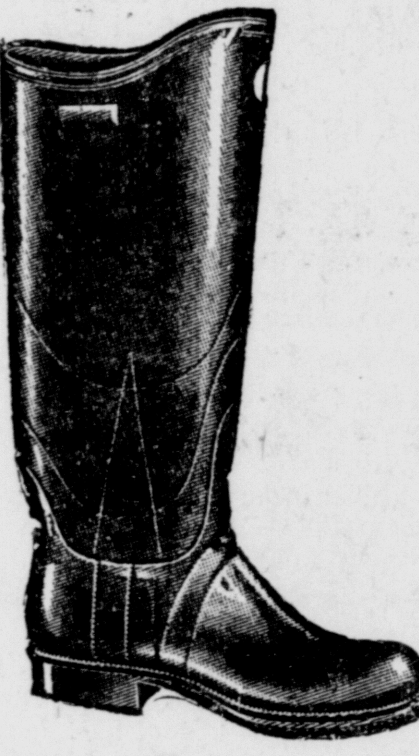

At the morning service Wednesday Mrs. Hattie Asbury, conference secretary, of Indianapolis, presented next year's plans to the different societies present and gave a splendid talk on the missionary work.

There are 105 missionary organizations in this district, including the auxiliaries, young women's societies, Standard Bearers King's Heralds and Little Light Bearers, and most of these organizations were represented at all or part of the sessions. During the past year these missionary societies have raised \$8,186.20 to be used for missionary work in the foreign fields. This amount does not include the conference fund, which amounts to \$67.90, and which brings the total raised during the year to \$2,254.10. The pledge for last year was \$8,400 and it is thought that this amount will be reached, after all the pledges have been turned in. The pledge for next year was placed at \$9,500.

## People You Meet

When you meet a stranger on the  
street, what do you do? Do you give  
him a greeting, or any form of recog-  
nition, or do you favor him with the  
once over and pass coldly on?The stranger judges this commu-  
nity to a great extent by the people he  
meets in just that way. If they are  
cordial and friendly it leaves a good  
impression. If they are cold and dis-  
tant the impression is not so good.  
And the impression he forms of us is  
passed on to other people in other  
places.An American officer returning from  
France tells of a famous French  
general who attracted his attention in  
the port city of Brest.This French officer had apparently  
been invalided home, and each day  
he was seen painfully progressing  
along the streets of the city, pre-  
sumably for exercise.It is said that he never passed an  
American without according him  
some kind of recognition. Sometimes  
it was a military salute. Often it was  
merely a courteous inclination of the  
head or a friendly smile. But alwaysthe old general extended some form  
of recognition to the American  
stranger within his city.That was five years ago, but the  
American officer still remembers,  
and continues to tell the story.Does the stranger who comes to  
our community, leave with the same  
impression of us?

## Is War in The Blood?

Another noted Englishman comes  
to the front with the statement that  
Europe is on the brink of another  
war, and that "hell will be popping"  
again before we know it.Statesmen the world over are  
looking for another clash, and it is  
said that even peace loving Washing-  
ton is beginning to see the hand-  
writing on the wall.With Europe, staggering under  
mountains of debt, with commerce  
and industry struggling to raise its  
head, it would seem that war would  
be the last thing of which Europe  
would think.But it appears to be in the blood  
and that which is in the blood will  
invariably make itself known.

## Postmaster's Work

The postmasters of this country  
have become a recognized power in  
government finance, according to a  
statement issued today by Wm. B.  
Bosworth, government saving direc-  
tor for the seventh federal reserve  
district. Between January 1 and  
September 30 this year they sold for  
the federal government \$154,300,000  
worth of 4 percent U. S. Treasury  
Savings Certificates. This is an in-  
crease of thirty-four million dollars  
over sales made during the same  
period last year."In the average sized town the  
postmaster holds a unique position,"  
said Mr. Bosworth, "for he knows  
most of his patrons personally. He  
knows when a man sells a piece of  
property. He knows when a widow  
receives life insurance funds. He  
knows when a farmer sells his crops  
or some live stock. He is not only in  
position to sell his patrons Treasury  
Certificates ranging in price from  
\$20.50 to \$4.100 but he can and does  
warn his patrons against wildcat  
stock salesmen that infest every  
prosperous community. In this way  
he helps banks and other legitimate  
financial institutions protect the sav-  
ings of people not accustomed to  
deal in investments."A box sapper will be given by the  
members of the Junior class of the  
Arlington high school Saturday eve-  
ning, October, 27, at the Arlington  
high school building.Look at our \$65.00 Combination  
range, Gunn Haydon. 18316If everybody in the United States  
learned to play football we could  
chase the book agents ragged.Zappke, of Illinois, is a football  
coach even if he does sound like a  
foreigner asking for soup.Best football players come from  
the broad open spaces where men  
are men and women are girls.Learning football is no easy mat-  
ter. Arguing with traffic cops and  
ice men is fine training.Football players must be tough.  
They must be tough as cafe steaks.  
Eating cafe steaks will help them.Never feed a football player on  
raw meat. It is dangerous. He may  
bite off his girl's nose.Looking for needles in haystacks  
will train a football player's eyes to  
see the point.What's a little rouge between a  
girl and her football hero? Nothing,  
if it is on her lips.Footballers must know open field  
running. Dodging autos helps in this.  
Never stiff-arm a limousine.Every body should know football.  
A good football player can trip a  
collector and step in his face.Women should learn football. It  
would help in bargain counter  
rushes.

## GAME MADE EIGHT MINUTES SHORTER

New Basketball Rules Provide For  
Eight-Minute Quarters For High  
School Teams

NO CHANGE FOR THE COLLEGES

Two Minute Rest Periods Between  
Quarters And 10 Minutes  
Between Halves

Under the basketball rules, effective among high schools in Indiana on November first, a copy of which has been received here, the game will be played in eight minutes less time than in former years, with the playing period divided into quarters of eight minutes each, instead of 20 minute halves, as formerly.

The rule on the length of the game applies only to secondary school, or high school, participated in by boys, and the regulation 20 minute halves will prevail in college and independent ball.

The length of the game also is changed for younger boys, under 14 years, who shall play their game with six minute quarters, with three minute rest between quarters and ten minute rest between the half way period.

Under the new rules, the eight minute quarters for high school teams, will no doubt meet with approval, because of the fact that it cuts off eight minutes of playing, and this will handicap many teams that are slow in starting their scoring machine, as 8 minutes would sometimes make a wide margin in the scores.

The new rules set out that the team shall rest two minutes between the first and second quarters, and no player is to leave the floor or to receive coaching during the rest period. At the end of the second quarter, the usual ten minute rest is held which is the half way mark in the game, and players may leave the floor. The play resumes again for eight minutes in the third quarter, and a two minute rest is called, and the game is then finished in the fourth quarter of eight minutes.

Under this plan the playing time will be only 32 minutes instead of the 40 minutes.

The ball goes back to the center of the floor for the toss up, at the beginning of each quarter. The visiting team has the choice of goals at the start of the game, and they exchange goals at the end of the second quarter, and not between quarters.

The rule that applies to personal fouls has been changed, and this rule is designed as follows: when a personal foul has been called, the player upon whom the foul was committed shall attempt the free throw or throws; but in case this player is so injured that he must leave the game, his substitute must attempt the free throw or throws. If the player who has been fouled is to leave the game by reason of disqualification or for any other cause except injury, he shall attempt the free throw or throws before leaving.

However, free throws for goal after technical fouls may be made by any player of the offended team. The throw for a foul goal shall be made within ten seconds after the ball has been placed upon the line by the referee. If the goal is made the ball shall be put in play at the center.

There is no change in the rule defining the ball out of bounds. The referee shall give the ball to the player nearest the ball, on the team opposite the one who last touched the ball as it was going out of bounds. In case the officials cannot determine who touched it last, he is to toss it up between two players.

Personal fouls are listed as follows: hold, trip, charge or push an opponent, whether or not either player has possession of the ball. Block an opponent. Use unnecessary roughness. Charge in and make bodily contact with an opponent who is one of two opposing players having one or both hands on the ball. The penalty is two free throws for goal if the offense is committed on a player who is in his own goal zone, and who has possession of the ball, that is, when he has control of the ball through holding it or dribbling it; or if committed on a player outside his own goal zone who is in the act of throwing the goal.

One free throw for goal when the offense is committed under any other conditions and in case of a double foul only one free throw shall be awarded each team. A player who makes four personal fouls is auto-

FOOTBALL, BASKETBALL  
BOTH GET UNDER WAY

Premier American Jockey

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Oct. 18.—Opinion was widely divided before the American thoroughbred was picked to run against Papyrus, the English Derby winner, in the international championship race.

Many turfmen thought that My Own was the best three-year-old in the United States and should have been picked instead of Zev.

Many still think so, and if the British horse should win, they will always maintain that Papyrus did not beat the best American horse.

There were no doubts, however, as to the jockey who should have the mount on the American color-bearer.

When the race was first considered, the name of Earl Sande, a young establishment on the American rider in the country who could complete the combination of the best jockey and the best horse against the foreign invader.

Sande is the premier American jockey of the present day. Many qualified judges of racing are willing to allow his star to shine into the past and they regard him as being as good as Snapper Garrison, Tod Sloan and other great riders of yesterday.

He is the ace of the staff of jockeys riding for the Rancocas stable, the largest and biggest money-making establishment on the American track. Considering the average of first, second, third, etc., scored last year, Sande was sixth on the list of American riders, but he was the leading money winner of the year.

Modest, unassuming, clean living and possessing all of the qualifications of a great rider, Sande is the idol of the eastern tracks. He is wealthy and wise. He commands a huge salary from the Rancocas stable and when he is not up on one of Sinclair's mounts, he can almost name his own fee to ride for another stable.

Because the public has absolute confidence in his honesty and because he has an uncanny faculty of getting the most of horses, Sande

has a tremendous following who make a lot of money out of backing every mount he rides.

When Sande is up, past performances are discounted and figures are set aside. His horses are backed simply because his genius gets something out of horses that can't be figured.

His phenomenal success was due to a lot of natural ability that was developed by a willingness to work and take his profession seriously.

Considering the money he has made, the fame he has attained and the popularity he has won, it might be only natural that Sande should think pretty well of himself. But he doesn't.

Sam Hildreth, trainer of the Rancocas stable, says that Sande is the finest tempered and the most behaved boy he has ever handled. All the swipes, the exercise boys and the stable boys like him and so do the horses. His disposition, perhaps, is no small part of his success.

Sande is up every morning before sunrise. He helps exercise and work-out the stable, from the greenest youngster in the barns to the leading blue-blood of the flock. He helps the trainers take the youngsters when they are being taught the ways of starting and he works just as hard and as willingly as the most obscure boy on the staff.

The life of a premier jockey is not easy. In making \$100,000 or more a year, it has its compensations, but its restrictions call for a great sacrifice from a pleasure-loving youngster, and most young fellows like to have a good time.

Sande cannot go around like other boys. To remain in shape and keep down his weight, he has to live sparingly and train religiously. He cannot indulge in any social pleasures and he cannot mix promiscuously, as racing is such a game that the supervisors of the sport must keep track of jockeys on and off the track.

Many boys love their work, and Sande, apparently, is one who gets his big kick out of life around the horses. He knows no other business and no other pastime and he seems to want no other.

Under the new rules, the eight minute quarters for high school teams, will no doubt meet with approval, because of the fact that it cuts off eight minutes of playing, and this will handicap many teams that are slow in starting their scoring machine, as 8 minutes would sometimes make a wide margin in the scores.

## BRITISH TRAINER PRAISES PAPYRUS

Basil Jarvis Says Good Horses Can Run Well on Dirt Track or Turf and Anyplace

ENGLISH HORSE IS READY

Declares That The Animal Adjusts Himself Quickly to Strange Surroundings Here

New York, Oct. 18.—"Good horses can run well any place, any time, on a dirt track or on the turf. Papyrus is a good horse. He isn't an Ormonde or a St. Simon. He is just a good colt. He shipped well from England and he trained fine here, and I expect him to be in top form for the big race."

With this general comment, Basil Jarvis, the young trainer of the English Derby winner, disposed of the stories that he feared his charge would be too hopelessly handicapped by strange conditions in the United States to do his best.

Difference in weather conditions and the change from the soft footing of the turf courses upon which he can in England to the sun-baked hard clay of the Belmont track had been pointed out as handicaps which could not help but reduce the speed and endurance of the British thoroughbred.

"As far as weather has been concerned, we have not noticed that it affected Papyrus in the slightest. It was so hot when we first arrived that it was unpleasant for all of us, but when cooler weather came we found that we did not notice any great difference between condition here and in England," Jarvis said.

"We do not believe that the dirt track will throw Papyrus off form. The track was very hard when we first started to work him, but he took to it like it was perfectly natural, and I believe he will run the same way. The only doubts we have had was about the effect that new shoes would have on him, as we can't use the same kind of shoes that he wears on turf courses."

It has been observed in Papyrus that he adjusts himself very quickly to strange surroundings and he is so even tempered that he is not upset by many things that bother high-strung animals.

In the United States the practice prevails of running all races with the inner rail on the near side of the horse, that is, with the turns all being made to the left. In England most of the classics are run the other way, with the inner rail on the right side of the horse. It was suggested that this difference would also throw Papyrus off.

"It is true that most of the races in England have the turns to the right, but not all of them. Some courses have left turns and others right turns, and Papyrus has done his running both ways," Jarvis said.

## PAPYRUS IMPRESSES CROWD

British Champion Goes Mile And an Eighth in 1:51 2/5

Belmont Park Race Track, New York, Oct. 18.—The big test for Papyrus which was to be the determining contest for settling odds came today.

Although this was only a morning workout, a crowd of more than 1,000 persons, turf fans, from England and parts of the United States, was present to watch the English champion.

Papyrus went a mile and a furlong at a fast gallop and his workout impressed the large group of turfmen who gathered around the clockers at the finish.

Papyrus went the mile in 1:38 2/5 and the mile and one eighth in 1:51 2/5, hard held. Donoghue was up and was riding as easy in the saddle as though for a canter. The crowd was enthusiastic over the showing. Up went Papyrus stock a couple of points. Every one crowded around to see what Basil Jarvis, trainer, and Donoghue, all grins, had to say.

## Booze in Church Basement

Findlay, Ohio, Oct. 18.—One thousand dollars worth of bonded whiskey was seized by police in the basement of the Wesleyan Methodist church here today.

The liquor apparently was stored there by bootleggers who hoped the sanctuary would be immune from raids.

## TITULAR HOPES GET FIRST TEST

Eight Western Conference Teams Will Receive First Baptism Of Fire Saturday

ALL BUT 2 OF BIG 10 TO PLAY

Mid-west Fans Will Center Attention On Ohio-Michigan - Illinois To Meet Iowa

Chicago, Oct. 18.—Western conference titular hopes of eight teams get their first real test Saturday when all but two big teams clash in conference games.

Mid-west fans will center their attention on Ann Arbor, Michigan, where Ohio-State and Michigan meet. Fresh from the sting of their defeat last in the dedicatory game for their new stadium, Ohio will trot on the field well pointed for Michigan. Michigan lacks ends and backs and so far has made only a mediocre showing compared with last season.

One of two strong conference teams will be eliminated when Illinois meets Iowa at Iowa City. Zuppke followers again have hopes of a title and expect the Illini to win. Iowa's early season games showed the same powerful running attack of former years, however, and the Iowans will enter the lists favorites.

Chicago, with a wealth of material, has so far been a disappointment to Maroon followers. Against Northwestern Saturday they will find their test as the Purple is a vastly better team this season. Indiana won from Northwestern last week but did not out-play them. If Chicago gets into the form that a Stag-Built should display, the Maroons will be winners easily.

With a victory over Northwestern, the Indiana team will again play a formidable eleven in Wisconsin.

Minnesota and Purdue have non-conference games scheduled. Neither team should be in real difficulty Saturday as their opponents are not of Big Ten calibre. Minnesota meets North Dakota while Purdue plays Wabash.

Notre Dame will receive only three days practice before again travelling eastward to face another strong team in Princeton. The high degree of early season development showed by the fighting Irishmen against the Army, makes them slight favorites for their second invasion of the east. The two long trips may prove a deciding factor however.

## STOVE LEAGUE IS ALREADY AT WORK

Guesses On What Base Ball Managers Will Do Next Year And Plans For Winter Discussed

GLEASON TO STAY IN THE GAME

New York, Oct. 18.—With the last pay checks and their "cut" of the world series money in their rolls, practically all of the Giant and Yankee players had departed from New York today. Most of them went home to widely scattered points.

John McGraw, manager of the Giants, announced that he would sail for Europe soon for his vacation and that he might pick out some spots for a tour proposed for his club.

Miller Huggins, manager of the champion Yankees, said he would return soon to Cincinnati and then would make a trip to Los Angeles. Both the Giants and the Yankees will train in California next spring according to reports.

Resignation of Knl Gleason as manager of the Chicago White Sox caused much speculation in baseball circles here. Gleason, it is thought, will remain in the American League and it would be no surprise to see him at the helm of the Detroit Tigers next year.

Frank Chance is said to be considering an offer to manage the Washington Senators; Lee Fohl is sure to go with the Boston Red Sox and the St. Louis Browns are said to be looking around for another manager.

Fred Mitchell is understood to be through as the pilot of the Boston Braves and George Burns, Cincinnati outfielder, is being mentioned as his successor.

## INDIANA READY TO TAKE ON WISCONSIN

I. U. Football Team Comes Out Of Its Scrap With Northwestern Without Injuries

SAME LINEUP TO BE USED

Bloomington, Ind., Oct. 18.—The Indiana football team came out of its game with Northwestern at Indianapolis last Saturday without injuries and Coach "Navy Bill" Ingram has his scrappin' Hoosiers on edge for the contest, with Wisconsin here Saturday. It is very likely that Ingram will send the same lineup against the Badgers that opened against the Purple. The big mentor appears to be better satisfied with the work of his men this week, although he has pointed out many rough spots to be smoother over before the Crimson meets the Badgers.

Are lights have been installed on Jordan Field and the Hoosiers are working until late in the night in preparation for Wisconsin. Ingram is continuing his policy of closed practices this week, working his men behind locked gates of Jordan Field.

Ingram's varsity eleven at the present time seems to be composed of Knoy and Bernoske, ends; Fisher and Reynolds, tackles; Springer and Mumby, guards; Capt. "stew" Butler, center; Wilkens, quarter; Marks and Moomaw, halves; Sloate, full. Niness and Woodward, two strong ends, and "Red" Zaiser, tackle, also appear to be possible starters. Niness and Woodward have been kept on the bench by injuries since early in the season. Zaiser broke into the Northwestern game last Saturday, and his aggressive play was one of the features of Indiana's victory.

Athletic officials here are preparing for a record breaking crowd Saturday. The seating capacity of Jordan field has been increased from 7,500 to 10,000 by the addition of new bleachers on the south side. Arrangements for handling the crowds have been perfected and special sections for rooters, alumni, and coeds, have been assigned. The advance of seats is heavy.

## Midwest Grid Briefs

St. Louis, Mo.—The St. Louis University football team will play the Army at West Point October 4 next fall, it was announced today. The Billikens asked for the game, and word was received from the Army accepting the offer.

St. Louis, Mo.—The Washington U Bears left today for Norman, Okla., to play football with the Oklahoma Sooners. The team is crippled by the absence of Oseal Claypool, full back, and Clarence Albin, tackle both injured in the disastrous start against Brinnell last week.

Columbia, Mo.—Coach Gwynn Henry announced a tentative lineup for the Tigers game against St. Louis U. Saturday that will give all four backfield men their first varsity experience. A half dozen cripples on the squad will be taken on the trip to St. Louis.

Chicago.—Forward passing drill was given Chicago again today for the Northwestern game. Federal agents have joined with the University in efforts to stop ticket scalping this season.

Evanston, Ill.—Twenty six letters were given grid stars of former days at Northwestern in a rally held last night for the Chicago game.

Urbana, Ill.—Offensive held the attention of Illinois today as the final preparation for the Iowa game Saturday.

Madison, Wis.—Wisconsin worked hard on intricate plays today for their Big Ten opener with Indiana.

Lafayette, Ind.—Despite a drizzly rain Purdue spent a long practice session today for the Wabash game.

Minneapolis, Minn.—A new backfield combination worked out on the Minnesota team today as Coach Bill Spaulding tried to replace cripples. Ann Arbor, Mich.—Michigan spent its time today behind closed gates.

## TWO KILLED IN ACCIDENT

Bloomington, Ind., Oct. 18.—An auto accident on a slippery hillside south of this city late last night cost the lives of Mrs. James Raines, 40, colored, and her one-year-old daughter. The car skidded to the side of the road and turned over an embankment. Mrs. Raines and daughter were crushed beneath the weight of the machine. They were enroute from their home in Hammond to visit relatives in Florida.

## FOUR WHEEL BRAKE

Flint, Mich. Quite naturally the unprecedented sale of Buick cars has intensified the four wheel brake discussion. What these brakes will do and what they will not do in comparison with brakes on rear wheels only, has unquestionably become the leading topic of motordom.

Over two months have passed since these brakes were brought out on the 1924 Buick models and, according to H. H. Bassett, President of the Company, never has an automotive engineering development been so generally accepted. Sales have exceeded all expectations in spite of the fact that the factory is working on a production schedule far in excess of any previous year.

Buick engineers experimented with four-wheel brakes even before they were adopted in Europe, where at present 75 percent of all cars have them, says Mr. Bassett, "while the present Buick system was subjected to hundreds of thousands of miles of road testing before finally approved. All this involved a tremendous outlay of time and money."

"The change from two-wheel brakes was inevitable in face of the fact that for twenty-five years engineers have been unable to perfect the latter, and the necessities of the present traffic situation," continues Mr. Bassett. "Average speeds of automobile driving have so increased in the last few years and traffic congestion has become such that brakes on four-wheels has become the only answer."

Three favorite questions of those who have not operated four-wheel brakes are these:

1. "Is there any difference in the feel?"
2. "Is the stopping smooth?"
3. "Is steering effected in turning corners?"

It seems to be now agreed that there is no very noticeable difference in manner of operation while probably the most pleasant surprise to those trying four-wheel brakes for the first time is the absence of jerk or jar in bringing the car to a standstill. As one critic aptly puts it—"The sensation is as though the whole car were stopping instead of the rear wheels alone."

As to the third question. Proponents urge that in mechanically operated brakes, such as the Buick, the brake shafts, by means of small universal joints, are free to move any way the wheels turn. Just as in most two-wheel brakes, compensators are employed to offset any tendency to distortion.

Advocates of four-wheel brakes declare that no constructive criticism has been forthcoming from opponents. As General Sales Manager Strong of Buick puts it: "all adverse comment consists of 'ifs'."

"If the four wheel brakes do not work properly."

"If they are not properly adjusted at the beginning."

"If they do not stay adjusted," etc.

"Why not condemn rear brakes by the same ifs?" "Why not condemn the motor car as impractical? If you should happen to run out of gasoline in the country? Or if you should happen to fall asleep at the wheel?" —Advertisement

## Society

The Advance Literary Club will be entertained Friday afternoon at the home of Mrs. Fannie Gray in North Perkins street. A very interesting program has been prepared for this meeting and all the members are cordially invited to attend.

The Bethany Girl's Class of the First Presbyterian church will be entertained Friday evening at seven o'clock at the home of Miss Mary Frances Spivey, 715 North Jackson street. Miss Ruth Allen will be the assisting hostess. All members are requested to be present.

Mrs. Sanford Moore was a delightful hostess Wednesday to the members of the Industrial Club, when eighteen members and two guests were entertained with an all day meeting. At the noon hour a pitch-in dinner was served cafeteria style and the afternoon was spent in quilting.

Mrs. Oscar Newhouse entertained the members of the Cross Country Club Wednesday afternoon at her home north of the city. An informal social afternoon was enjoyed by those present and a short program was given. Delicious refreshments were served to the guests by the hostess at the close of the afternoon.

Miss Irene Reardon entertained with a card party Wednesday evening at the home of her parents, Mr. and Mrs. John Reardon, in West First street. Thirty tables of euchre were in session during the evening and at the close of the card games dainty refreshments were served. The party was given for the benefit of the Catholic school fund.

The Willing Workers of the New Salem M. P. church held an all day meet Wednesday at the home of Mrs. Bert West, east of the city. At the noon hour a dinner was served. In the afternoon a short program was given, of which Mrs. Nettie Brown was the leader, and a contest followed. The next meeting will be held at the home of Mrs. Frank Tilley, Nov. 14. At the close of the meeting, refreshments of ice cream and cake were served.

The members of the Psi Iota Xi sorority will give a charity card party next Thursday afternoon, October 25, at the Elks club rooms in East Second street. The games will begin at 2:15 o'clock and all those who are planning to make reservations for one or a group of tables, are requested to call phones 1615 or 1821 immediately, to make their reservations. A favor will be given to the winners of each table.

The Misses Elizabeth and Mildred Goodbar, while visiting in Lexington, Va., were the guests of honor at a party given by Mr. and Mrs. John Dixon during their visit there. Dancing and music furnished entertainment for the evening. The guests were the Misses Mildred Goodbar of Lexington, Ruby and Lydia Goodbar, Roly Goodbar, Louise Dixon, Ellen Dixon, Virginia Dixon, Sadie Coffee of Buena Vista, Va., Mildred and Elizabeth Goodbar, of this city, Alton Barger, Hunter Goodbar, Junior Dixon, Thomas Dixon, Gundy Goodbar, Bufford Dixon, Robert Goodbar, Henry Montgomery, all of Lexington, Va.

## TOUR BEGINS TO BRING RESULTS

Continued From Page One  
problem. He has repeatedly told his audiences—a crowd of 12,000 cheered him when he said it in Chicago last night—that the Hughes economic commission plan is the only sensible way to arrive at a reparations settlement. In his speech last night, he gave the big audience a detailed A. B. C., explanation of reparations—told them how the prosperity of the United States depended on a settlement; told them how the French policy, based on "the blindness of force and violence" would never succeed; told them that if France and Belgium would agree to the Hughes plan, and it was shown that Germany could pay more and would not "then we can march together to force her to pay."

He explained the whole problem as it has never before been explained to an American audience. Having created an understanding of the problem and of its bearing on American affairs, he doubtless has left behind him here a new interest in it. That is what is being counted on to make his work of lasting benefit to those American business men who will now try to get President Coolidge and Secretary Hughes to offer again to Europe, the Hughes plan of solution.

Lloyd George left this morning for Springfield, to visit the shrine of Abraham Lincoln there. Lincoln is one of the Welshman's heroes. Lloyd George had recovered from his indisposition caused by fatigue but it was decided, in view of his condition, to cut out of the rest of his program all social events that could possibly be dispensed with. Sir Alfred Cope, one of his personal representatives, will therefore precede the party from now on, revising the program in each town. Though Lloyd George's secretaries are besieged with inquiries from many cities concerning his intentions, it is impossible now to say with certainty what he will do and what he will omit in the towns yet to be visited. That will be arranged by Cope, beginning with the St. Louis program.

## MOVIES

### At Mystic On Friday

If it is fights that will lure one to the theatre, "The Three Buckaroos" is as enticing as a photoplay can be. Hardly has the introductory title faded out when things begin to happen. One first has a laugh—that's always a good tonic—when Dartigan is seen meandering down the countryside astride a decrepit, potbellied roan horse. Farther down the road, in Onyx, the nag and its rider move a typical "mad man" to jeers. That's where the tobacco is thrown into the composition. At this point the patron will take the kinks out of his spine and sit up and take notice. The bad man becomes at once identified in Dartigan's mind as "My man of Onyx!" and he will become identified as surely in the spectator's mind, for he and Dartigan mix things gloriously on more than one occasion. And he is not the villain, but one of the villain's henchmen. The villain has his day in court—only it isn't in court, and it is not his day. It's Dartigan's day.

Getting back to "My Man of Onyx," the pulses quicken and one's breath is almost stopped when Dartigan frustrates a stab in the back and engages the would-be assassin in a hand-to-hand encounter on the edge of a deep abyss; again when Dartigan leaps from his horse's back onto the Onyx person's back; again in a rocky, treacherous pass where nimble wits turn the tide of battle; again—but why continue. "The Three Buckaroos" will be presented Friday at the Mystic Theatre. It will be found a wonderful tonic for jaded nerves or fatigued minds.

### Good Picture At Princess

George Melford's latest Paramount picture production, "You Can't Fool Your Wife," which was shown for the first time at the Princess Theatre Wednesday was hailed as one of the best of the current season. It will remain until tonight.

Between manipulating deals in the stock market and making flying trips to and from Nassau in a flying boat, Lewis Stone, a featured player in the leading man's role is kept busy throughout the course of the picture. Leatrice Joy, also a featured player with Nita Naldi and Pauline Garon, plays the role of the confiding wife, who fancies, on superficial evidence supplied by her flirtatious husband, that her trust is misplaced. She unexpectedly effects a reunion with her husband thus bringing to a happy climax one of the most interesting and cleverly conceived picture stories ever seen on the screen of this theatre.

In support of the leading players is a splendid cast, including Paul McAllister, John Daly Murphy, Julia

Swayne Gordon, Tom Carrigan and Dan Pennell. The scenario was written by Waldemar Young. The picture is as thrilling as it is entertaining, and well worth seeing.

the constitution he said the rights guaranteed by the constitution had been broken and that he was prepared for a struggle if it became necessary.

Meuller's letter, while making no definite threat, firmly demanded a reply by eleven o'clock today stating "unquivocally" whether "the Saxon ministry as a whole identifies itself and is in agreement with the letter and spirit of Finance Minister Boettcher, or whether the Saxon government is willing to act against the utterances of Finance Minister Boettcher and in accordance with my instructions."

This letter was interpreted here and in Dresden as stripping the last vestige of covering from sheer military dictatorship throughout the country.

The general's demand was understood to be backed by the presence of fifteen battalions of troops under orders to march at his command.

No indication was seen of Saxony's willingness to yield.

Late reports from Dresden said the city was quiet. It was known, however, efforts were being made in some quarters to effect a compromise though how this might be brought about could not be foreseen.

Boettcher in his inflammatory speeches to which Mueller took exception declared that any attempts of the parties of the right to start a counter-revolution by political and economic attacks must be met by force.

The proletariat must be prepared to stand its baptism of fire, he said.

With President Ebert refusing the Socialist demands here to raise the state of seige proclaimed throughout the country and Mueller in a mood to spill blood in Saxony, the situation was considered the most tense that has confronted the Reich since it abandoned resistance in the Ruhr.

Socialists were extremely bitter again Herr Kahn for denouncing democracy as "ruler-ship of the masses".

The scoff at federal rulings with impunity.

Boettcher's utterances, which were condemned as silly, were met by sabre-rattling in Berlin.

President Ebert, Chancellor Stresemann and Dictator Gessler approved the steps taken by Mueller, the government announced today.

The announcement was taken to mean the government was solidly backing the military and that it intended to force the Saxon reds to retreat from their radical aspirations.

### To Prevent Rioting

Mannheim, Germany, Oct., 18.—Strong detachments of police patrolled the streets here today, erecting barbed wire barricades at strategic points to prevent repetition of yesterday's fatal rioting in which two were killed and many wounded.

Police rigidly enforced their order forbidding all demonstrations.

## Facts about Child-birth

AN eminent physician has shown to thousands of expectant mothers just how to be free from dread, and from much of the suffering which many mothers experience for months, right up to the moment when the Little One arrives!

Mrs. Wm. Washington, 107 Louise Ave., Nashville, Tenn., says: "There is positively no woman on earth that would be without 'Mother's Friend' during expectancy if she only knew the value of comfort."

"Mother's Friend" is externally applied to the region of the abdomen, back and hips. It relieves the tension on nerves and ligaments as month follows month. Finally, it makes child-birth a joy instead of a painful ordeal.

Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradfield Regulator Co., B.A.-72, Atlanta, Ga., for a free wonderful book containing information every expectant mother should have. Get a bottle of "Mother's Friend" today. It is sold by all good druggists.

## What is Your Sight Worth?

Are you sacrificing your chance of success by not having your eyes properly cared for?

Some people go for years—suffer all sorts of physical ills and age prematurely — simply because they fail to give their eyes the proper care.

Talk this fact over with yourself today—your happiness, your business career, and the future of your loved ones depend upon YOUR eyes.

Mr. and Mrs. Jacob Faure of Liberty are spending two weeks here with Mr. and Mrs. S. H. Bowen.

Miss Nellie Armstrong of Connersville and Irvin Armstrong of Harrisburg came Saturday evening and spent Sunday with their parents, Mr. and Mrs. B. F. Armstrong.

Miss LaVaugh Scholl, who is teaching at Westwood, Ohio, was home over the week-end.

Mrs. J. C. Creek and children have returned home from a visit with her parents, Mr. and Mrs. Cleo Diggins, in Muncie.

Mrs. Dan Dane of Indianapolis, Mrs. Anna Custer and Mrs. Florence Rockafeller of Connersville were the week-end guests of their sister, Mrs. Thomas Matney.

Evel Beaver motored to Jennings county Sunday morning and was accompanied home in the evening by his wife who had been visiting relatives for several days near Paris Crossing.

THIS LITTLE BABY GIRL

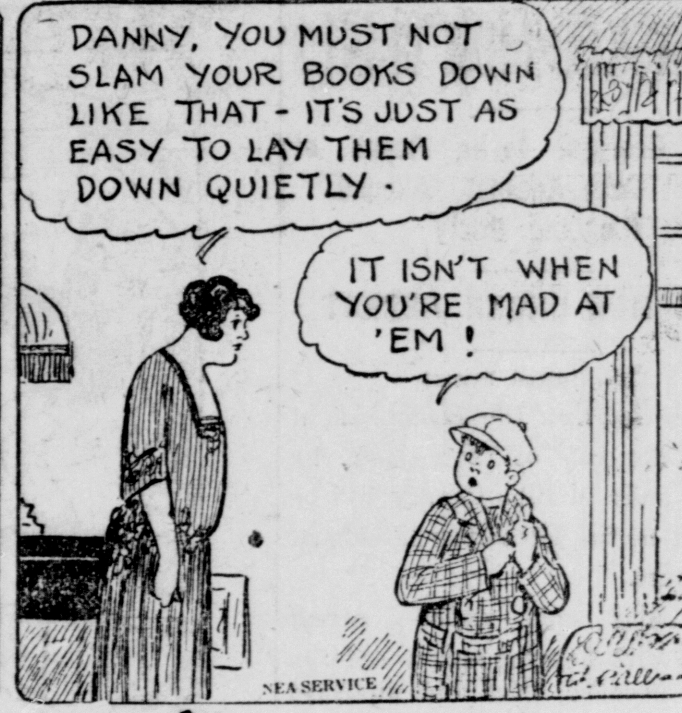

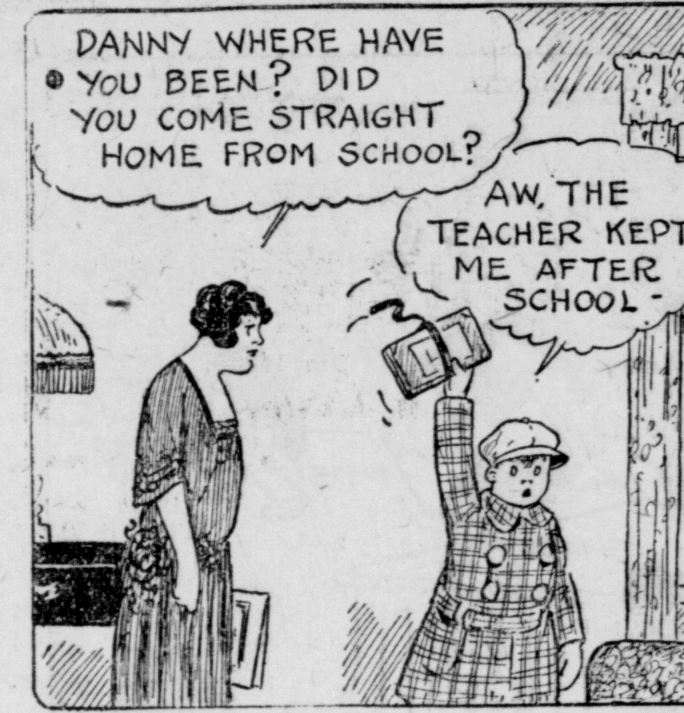

Was Benefited by the Good Her Mother Got from Lydia E. Pinkham's Vegetable Compound

Pittsburgh, Pa.—"I took Lydia E. Pinkham's Vegetable Compound before my little girl was born, and the effect it had was wonderful. This will be the first child I have nursed, as I had to bring my two boys up on the bottle. I was very nervous and after I read about the Vegetable Compound I tried it and kept on with it. I still continue its use and recommend it to my friends. You may publish these facts as a testimonial for your medicine."—Mrs. Wm. KLINGE, 163 Plymouth St., Pittsburgh, Pa.

It is remarkable how many cases have been reported similar to this one. Many mothers are left in a weakened and run-down condition after the birth of the child, and for such mothers the care of the baby is well-nigh impossible. Not only is it hard for the mother, but the child itself will indirectly suffer.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It can be taken in safety by the nursing mother.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.  
Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.  
Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.  
Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.  
Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c

## TO FIGHT RULE OF MASKED MOB TRIALS

Macon, Georgia, to be Scene of Court Case Against Alleged Flogging Party

### NINE MEN UNDER ARREST

(By United Press)

Macon Ga., Oct. 18—Macon's fight against the rule of the lash by masked mobs in Bibb County will be resumed at the December session of City Court.

With nine men under arrest charged with flogging nearly a dozen citizens accused, tried and punished without a hearing at a midnight court held in the woods near here, the prosecution expects to prove responsibility for the series of floggings.

The first two trials met in reverses, but Roy Moore, city solicitor, is using the interval to strengthen his evidence against the alleged band of whippers.

Dr. C. A. Yarbrough, prominent dentist, charged with being the "whipping boss" of Macon, was acquitted at his first trial on a charge of rioting in connection with one flogging. A second trial a week later resulted in a mistrial, with the jury standing nine to three for conviction. Dr. Yarbrough still faces five other counts.

Macon for nearly a year has been terrorized by activities of floggers. One man, suffering from consumption, was severely beaten. Another time a man and a woman were kidnapped and the woman forced to look on while the floggers severely lashed her companion.

Persons were kidnapped from the streets by men who dashed about in automobiles and for a time the police were powerless.

## HAS WAY TO AID WHEAT FARMER

Gov. R. A. Nestos Of North Dakota  
Recommends Establishment Of  
Governmental Agency

### AT GOVERNOR'S CONFERENCE

Issue Of Farmers' Relief Pushes  
Prohibition By Board At Today's  
Sessions

By EDWARD C. DERR  
(U. P. Staff Correspondent)

West Baden, Ind., Oct. 18.—The wheat farmer of the middlewest faces utter ruin unless some immediate remedy is found for his economic difficulties, Governor R. A. Nestos of North Dakota declared today in an address before the governor's conference here.

The north Dakota executive recommended the establishment, to avoid further delay, of a governmental agency, possibly under the war finance corporation, with full authority to segregate the exportable surplus of the wheat crop and sell it in the world markets at the best terms obtainable.

This agency, he said, would be expected to cooperate with the American Farm Bureau Federation and the American Wheat Growers association in relieving the farmers.

"The plight of the wheat farmer is so serious," he said, "that unless relief comes at once thousands of farmers will lose, or will be driven from their lands and disaster will overtake many of the communities and cities of the wheat growing sections of the country."

The issue of farmer's relief pushed the prohibition question by the boards in the session. Prohibition has not yet been formally taken up for consideration by the governors and only once or twice has it been mentioned during the deliberation of the assembly.

"Far more important to the welfare of the country than prohibition, is the danger of absolute bankruptcy facing the farmers," declared Governor Walker of Georgia.

"Before we talk of further steps to tighten the prohibition enforcement, laws we must fight out what we are going to do for the farmer."

The conference got away to a late start yesterday. The first session was scheduled to be called to order at 2 o'clock, but the auto caravan did not reach here from Indianapolis until late in the evening.

A heavy rain and slippery roads delayed the progress of the government.

## ATTENDANCE LIKELY TO BREAK RECORDS

First Business Session of Indiana  
State Teachers Association  
Scheduled for 5 P. M.

### 30 SECTIONAL MEETINGS

(By United Press)  
Indianapolis, Ind., Oct. 18.—With the holding of more than 30 sectional meetings, the seventeenth annual convention of the Indiana State Teachers Association began here today.

Early indications were that the record for last year, when more than 13,000 teachers from all parts of the state were in attendance, would be broken.

The first general business session will be held at the Cadle Tabernacle at 5 o'clock this afternoon. Following the general session, congressional district meetings will be held at which a vice-president, and members of the nominating committee will be selected.

Chief interest centered in the election of a president to succeed Miss Elsa Huebner, of Indianapolis. The names of Benjamin Burris, Indianapolis, and W. A. Denny, superintendent of the Anderson schools, were most frequently heard for the post.

A harmonious business session was predicted by leaders of the association. Attempts to change the constitution of the association which threatened to disrupt the organization two years ago were dropped last year by mutual consent of all factions.

## TWO HOG SALE SUCCEED

Poland China And Pedigreed Duroc  
Auctions Held Wednesday

A Poland China hog sale and a pedigreed Duroc sale were held in Rush county Wednesday, and at each sale a large attendance was reported and good prices prevailed at each place.

The Charlie J. Fisher Duroc sale, which was held at his farm south-east of Rushville, was the fourth annual event and 53 head was offered for sale which averaged \$23.65. Mr. Fisher, who lives in Rushville, stated that the sale was a big success from all angles.

The B. V. Miller and Sons sale of Poland China hogs was held yesterday at the farm five miles west of here, when 53 head of the big type hogs were offered for sale, and the average was \$26.50, which was considered very good by the owners. They also reported a good crowd, and were well pleased with the results.

## NOT TO BE TRIED IN THIS COUNTY

Change Of Venue Granted In Case  
Of Gertrude Williams Against  
Peoples National Bank

### NO COUNTY DESIGNATED YET

Claim Of \$1,800 Against Michael  
Oneal Estate Dismissed By Agree-  
ment Of Parties

The law suit of Gertrude Williams against the Peoples National bank, Earl H. Payne and Ralph Payne, in which the plaintiff demands \$8,500 as judgment on notes, alleging a conspiracy, will not be tried in this county, as the defendant the Peoples National bank, has been granted a change of venue.

The court has not designated any county for the case to be tried in but will send it to some adjoining county in a few days.

The motion for a change of venue was based on allegations that there was prejudice existing in this county, and that the parties concerned could not receive a fair and impartial trial.

In the complaint of Cynthia White against Zona White in which the defendant filed a motion for a change of venue a few days ago, the court has selected Henry county for the change, and the defendants are given 5 days in which to perfect the change.

The complaint of Carl Oneal against Edward T. Oneal, executor of the estate of Michael Oneal, a claim amounting to \$1,800 against the estate, has been dismissed in court by agreement of the parties.

The jury has been ordered for services again Friday, after having been called Wednesday and not used.

## DEALS WITH KLAN IN A GENERAL WAY

Resolution Before American Legion  
Convention Refers To Un-Ameri-  
can Organizations

### ONE ENDORSES FRENCH STAND

(By United Press)  
San Francisco, Calif., Oct. 18.—The Ku Klux Klan issue in a general form, was sent to the floor of the American Legion convention here today.

The resolution declared: "We consider any individual, group of individuals or organizations which create or foster racial, religious or class strife among our people or which takes into its own hands the enforcement of the law, the determination of guilt or infliction of punishment, to be un-American, a menace to our liberties and destructive to our fundamental laws."

"We consider such action by an individual, group or organization to be inconsistent with ideals or purposes of the American Legion."

The resolution committee also reported out a resolution to appoint a committee to study the plan for permanent world peace and report back to next year's convention and a resolution endorsing France's occupation of the Ruhr.

## TAXES IN 1924 WILL BE LARGER

Amount to be Collected Next Year is

\$961,479.78 This Year

### AN INCREASE OF \$49,654.18

Sums Collectable From Each Tax-  
payer in County Computed by  
Auditor Since September 24

Taxes collectable in Rush county next year amount to \$49,654.18 more than this year, according to a compilation of taxes payable in 1924, in each taxing unit in the county, completed at the county auditor's office.

Taxes falling due this year amounted to \$961,479.78, according to the records in the county treasurer's office, and next year the taxes to be collected amount to \$1,011,133.96.

The 1924 taxes of every person in Rush county have been computed by the county auditor, Phil Wilk, and his deputy since September 24, when the rates in each taxing unit were certified to the auditor by the state board of tax commissioners.

Although the auditor is not required to have the taxes computed before the first of the year, when the first installment falls due, he and his deputy went to work on their task as soon as the rates were definitely established, and finished it up two and one-half months ahead of time.

Although only six of the fifteen taxing units in the county increased their rates for 1924, property valuations on which taxes are paid were increased over a half million dollars.

### Attention Called to Hours

#### For Burning Leaves in City

Attention to a city ordinance, regulating the hours for burning leaves within the city, was called today by Joe Williamson, fire chief, who issued a warning to violators of the law. No leaves shall be burned after two o'clock in the afternoon, the ordinance says, and burning them on paved streets is forbidden. Leaves lighted after two o'clock may smoulder into the night, and cause a serious fire if neglected. The smoke clouds hang low after two o'clock, and also is injurious to the health of the people.

Radical President Of Saxony Defies  
Dictator, Refusing To Disavow  
Radical Speeches

By CARL D. GROAT  
(U. P. Staff Correspondent)

Berlin, Oct. 18.—The minister of defense this evening instructed General Mueller in Dresden to use police only to dissolve the Saxon communist "Red hundreds."

The order was interpreted as a complete backdown by the federal government which had previously threatened to use the army.

Mueller was instructed to hold his troops in reserve. The order came only after several hours debate between government leaders. A section of the cabinet, it was understood favored letting Mueller go ahead in using the act to enforce federal supremacy in Saxony.

The radical minister president of Saxony, Dr. Zeigner today openly defied the demands of the federal dictator of the Dresden district, General Mueller.

He opposed answering the general's letter demanding the Saxon cabinet disavow the fiery speeches of Saxony Finance Minister Boettcher.

Zeigner declared in the diet he was read to fight for a dictatorship of the proletariat.

Zeigner read the letter from General Mueller demanding disavowal to the diet, asserting he objected to such attempts at interference with his government.

The annual meeting of the Women's Foreign Missionary Society of the Connersville district, which was held at the Methodist church in Milroy, Tuesday afternoon and Wednesday of this week, closed their sessions with the installation of officers, by Dr. J. M. Walker, who is superintendent of the Connersville district of the Methodist Episcopal church.

The officers installed were Mrs. Ward, of Laurel, president; Mrs. Hiner Hunt, of Liberty, recording secretary; Mrs. C. A. Dugal, of this city, treasurer; Mrs. Montgomery, of Shelbyville, corresponding secretary; Mrs. D. O. Black, of College Corner, secretary of Young People's Work; Mrs. Harper, of near Connersville, superintendent of Children's work. The following group leaders were also installed: Mrs. John Driscoll, of Bath, leader of College Corner group; Mrs. M. S. ## CIVIL WAR VETERAN DIES

John Hackleman, 78, Expires At  
Home In Milroy

John Hackleman, age 78 years, a veteran of the Civil War, died Wednesday night at ten o'clock at his home in Milroy, death resulting from a prolonged illness with a complication of diseases, caused by advanced age.

The deceased was a well known resident of Milroy, where he had spent practically all of his life. He is survived by a sister, Miss Sarah Hackleman, with whom he made his home, and another sister, Mrs. Amanda Osterling, living west of Milroy. The deceased was never married.

The funeral services will be held at the late residence in Milroy on Friday afternoon at two o'clock, in charge of the Rev. Mr. McColligan, and burial will be made in the cemetery at Milroy.

## BELIEVES SON TOOK HIS CAR

John H. Coers of Morristown Re-  
ports Disappearance of Automobile

John H. Coers, a deaf and dumb resident of Morristown, was here Wednesday afternoon consulting with Sheriff Hunt in regard to his automobile that he believed was wrecked east of this city and abandoned. The machine was not located, but it was learned from that vicinity that a son of Mr. Coers was in company with a young lady of that vicinity last Friday night, when the machine met with an accident near Homer. After a further investigation at Homer, it was learned that the son had the machine repaired and drove it away. Mr. Coers left the impression with Sheriff Hunt that his son had taken the machine and left for Detroit, where he was formerly employed.

### BUSINESS MEN AWAKENED

Believe Englishman's Tour Will Re-

Europe's Troubles

By LAWRENCE MARTIN  
(Copyright, 1923, by United Press)

Chicago, Oct. 18.—Lloyd George's American tour today began to bear fruit in the organization here of a movement to carry on, after he departs, the campaign he has set in motion for American participation in practical, business like settlement of the world's troubles.

One of the first efforts of those who want to take advantage of such sentiment as Lloyd George is creating in this country for such American participation will be directed towards getting the Coolidge administration at Washington more actively interested.

Lloyd George has made a deep impression on some of the unobtrusively influential men of the middle-west. They are men who are on the inside of things, but who do not seek the limelight. They work quietly, but effectively and their influence will be brought to bear in Washington.

They believe Lloyd George's visit will result in a new American understanding of the European situation and a consequent demand that America aid in a world settlement, in the interests of American commerce and industry.

The first step in this, as Lloyd George has pointed out in virtually all the speeches he has made on this continent, is to settle the reparations (Continued on Page 6)

## THIRTY-EIGHT AT DENTISTS MEETING

Semi-Annual Session Of Eastern In-  
diana Society One Of The Best  
Ever Held

### NEXT MEETING AT LIBERTY

The Eastern Indiana Dental society which met here Wednesday in semi-annual session, enjoyed one of the best programs on record, according to those who attended, and the number of dentists attending was 38, which was more than expected on account of the weather.

The session closed last night with an illustrated lecture by Dr. Victor H. Hilgemann of Fort Wayne, and the address was one of the best of its kind ever delivered to the association.

The sessions began here in the afternoon and closed with the night program. The society held forth at the K. of P. hall, and the Pythian Sisters served a bountiful banquet at six o'clock.

The next meeting of the dentists will be held at Liberty in April. No officers were elected at the meeting here, as each officer serves for two meetings, and the officers will not be elected until the Liberty meeting.

## MOTOR TITLE LAW PUTS STATE FIRST

Indiana Tied For First Place in  
Holding Record For Lessening  
of Automobile Thefts

### ROBERT HUMES IN REPORT

Rushville Man, Head of State Police,  
Gives Advice to People Who  
Have Machines Stolen

The certificate of title act, as passed by the general assembly of 1921, has accomplished far more than expected in the short time that it has been a law, according to Robert T. Humes of this city, who is chief of the state motor police, with headquarters in the state house at Indianapolis.

This act was written and made a law so as to make it difficult for auto thieves to operate in this state, and hence to lessen the number of motor vehicles stolen annually, according to Mr. Humes, who has contributed an article this month to the "Indiana Highways and Motors" magazine.

A portion of his article appearing in this issue, relates the following:

The Auto Protective and Information Bureau of Chicago, the largest clearance house in the country, rates Indiana as tied with Minnesota and New Mexico for first place, with Michigan and Missouri tied for second, in percentage of stolen cars recovered. Michigan, Missouri and Minnesota have a title law.

The largest handicap that the State police have in recovering cars is the fact that our neighboring states, except Michigan, do not have a motor title law. This means that the cars stolen in this State are taken out of the State and sold. However, stolen cars coming into this State from other states are quickly recovered and returned to owners.

Although most of the motorists of this State are familiar with the inside workings of the auto theft department, many are not well enough acquainted so as to make the best use of it. The following instructions should be carried out in case your car is stolen.

1. Notify the nearest police officer.
2. When reporting your car stolen be able to give full description of car, especially engine number, serial number, if any, and license number.
3. Place an identification mark on

## BAD WEATHER CUTS DINNER ATTENDANCE

Crowd at Rush County Horse Thief  
Detective Association Meeting  
Reduced by Rain

### FRITCH COOPER ENTERTAINS

Bad weather cut in on the attendance at the pitch-in dinner and meeting of the Rush county company of the National Horse Thief Detectives association, which was held at the coliseum in Memorial park today.

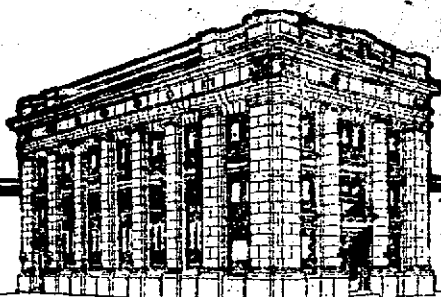

Fritch Cooper of Elwood, Ind., who has appeared before the local organization before, was to give an entertainment this afternoon and short talks by local members were to compose the remainder of the program. Mr. Cooper is a versatile entertainer, being able to play on a number of musical instruments, and he also tells stories well.

The pitch-in dinner was served during the noon hour and was enjoyed by a crowd estimated at near four hundred people.

This is the first meeting of this character ever held by the Rush county association and it is likely that it will be made an annual affair. In the past the organization has given an annual dinner, but the membership has increased to such proportions that it was found impossible to get a place large enough to hold the dinner.

Today was selected as the date because the schools of the county were dismissed on account of the Indiana State Teachers association being in session, which allowed members to bring their families. The rain, however, reduced the attendance appreciably.

## Why Do Hogs Root?

**H**OGS don't root merely "for the fun of it." They are after something that their present ration lacks. And every day they root, they are NOT putting on weight as fast as they otherwise would—they are cutting down your profits.

Ringling is not the profitable way to stop rooting—ringing does not get at the causes. A ringed hog WANTS to root just as much as ever—for he still needs essential, body-building mineral elements to balance his ration.

KINGSBURY'S Mineral Hog Feed gives your hogs the very mineral elements they need to

build bone and tissue—the very elements that they seek in rooting. Rich in phosphorus, sulphate of lime, calcium and other important minerals—based on Purdue's formula—KINGSBURY'S Mineral Feed insures bigger frame, higher vitality, better appetite and more rapid gain in weight.

Give your pigs a chance to make the most money for you! Let them have the minerals which will build a BIG FRAME. You can put more weight on a big-frame hog. Get that extra profit! Buy a bag of KINGSBURY'S Mineral Hog Feed from your dealer at once.

KINGSBURY'S is an accurately-mixed mineral ration ready for your self-feeder. And you can get it at the right price—no fancy canvassers' selling commissions to pay, no long-distance freight rates and warehouse charges. Your own, dependable dealer has KINGSBURY'S. See him!

Sentiment of the governors toward the question of prohibition was shown in their applause when Governor Hardee, of Florida, declared that America is now essentially dry, despite the number of liquor law violations reported throughout the nation.

Governor Hardee predicted that within a few years violations of the eighteenth amendment would be a thing of the past.

The governors generally, in informal discussions, admitted that prohibition enforcement in their respective states was not all it ought to be, but attributed this condition to lack of sufficient funds to carry on the work rather than to any lack of zeal on the part of the prohibition enforcement officials in the prosecution of their task.

Governor McCray, in welcoming the visiting executives, said the word "Hoosier" was a synonym for hospitality, and told them the state was theirs during their stay.

Governor McMaster, of South Dakota, responded to the address of welcome.

The Woman's Home Missionary society of the Wesley M. E. church will serve a fried chicken supper Friday evening, beginning at 5 o'clock, at the church hall.

## MOTOR TITLE LAW PUTS STATE FIRST

Continued From Page One

your car in some obscure place, or manner, so if your car is recovered and all numbers and identifications are gone you will have a positive way of identifying your car.

4. Report should be made to Robert T. Humes, Chief of the State Motor Police, Room 107 State House, by all city police, sheriffs and other peace officers throughout the State of Indiana. Furthermore, all motorists should report instantly the theft of their car to this same source. In other words, the State Auto Theft Department is the clearing house for auto theft information in Indiana and if this information is supplied promptly and thoroughly it will then be compiled, printed and distributed over the United States to various police departments. Furthermore, if such information is returned promptly, information from one part of the State will dovetail into information received from another part of the States which, when put together, immediately solves the riddle, whereas neither bit of information alone is sufficient to lead to recovery of the car or the capture of the thief.

5. The finding of an abandoned motor vehicle should be reported to this department the same as the theft of your car, because it is someone's car.

6. Whenever circumstances surrounding an automobile are suspicious, indicating that this car might be stolen, report of it should be made to the State Auto Theft Department.

7. This department is for the motorists of the State. Use it as you should and not only help yourself but help us to serve you better.

8. If your car has been stolen and later recovered do not be satisfied with getting your car back. If the thief is found with the car, regardless of where he is, file an affidavit against him, or them, and the State police will go after them and return them to this State for trial without expense to you. If you allow the thief to go free it allows him to steal your or someone's car again. Convict all the thieves and you solve the auto theft trouble.

9. If your car has been stolen and later recovered do not be satisfied with getting your car back. If the thief is found with the car, regardless of where he is, file an affidavit against him, or them, and the State police will go after them and return them to this State for trial without expense to you. If you allow the thief to go free it allows him to steal your or someone's car again. Convict all the thieves and you solve the auto theft trouble.

## NEXT MEETING GOES TO LIBERTY

Continued From Page One

Mrs. McCartney of Shelbyville, leader of the Shelbyville group; and Miss Rebecca Daily, of Greensburg, leader of the Greensburg group.

During the business meeting held Wednesday afternoon, Liberty was chosen for the convention city next year, and the committees made their reports. Two splendid addresses were also given during the session by the two missionaries who were present at all the sessions, Miss Myrtle Wilson, of Central Africa, and Miss Belle Overman, of Korea.

On Tuesday evening the feature entertainment was the pageant given by the Standard Bearers of Waldron. It was pronounced very good by those who were present, and the Waldron young people were very highly praised for the production. The church was crowded with people, mostly young people, for this service.

At the morning service Wednesday Mrs. Hattie Ashbury, conference secretary, of Indianapolis, presented next year's plans to the different societies present and gave a splendid talk on the missionary work.

There are 105 missionary organizations in this district, including the auxiliaries, young women's societies, Standard Bearers King's Heralds and Little Light Bearers, and most of these organizations were represented at all or part of the sessions. During the past year these missionary societies have raised \$8,186.20 to be used for missionary work in the foreign fields. This amount does not include the conference fund, which amounts to \$67.90, and which brings the total raised during the year to \$2,254.10. The pledge for last year was \$8,400 and it is thought that this amount will be reached, after all the pledges have been turned in. The pledge for next year was placed at \$9,500.

**BIBLE THOUGHT**  
FOR TODAY  
Bible thoughts, memorials, will give a  
precious heritage in after years.  
TIME NO OBJECT:—But, be-  
loved, be not ignorant of this one  
thing, that one day is with the Lord  
as a thousand years, and a thousand  
years as one day.—2 Peter 3: 8.

**People You Meet**  
When you meet a stranger on the  
street, what do you do? Do you give  
him a greeting, or any form of recog-  
nition, or do you favor him with the  
once over and pass coldly on?  
The stranger judges this commu-  
nity to a great extent by the people he  
meets in just that way. If they are  
cordial and friendly it leaves a good  
impression. If they are cold and dis-  
tinct the impression is not so good.  
And the impression he forms of us is  
passed on to other people in other  
places.  
An American officer returning from  
France tells of a famous French  
general who attracted his attention  
in the port city of Brest.  
This French officer had apparently  
been invalided home, and each day  
he was seen painfully progressing  
along the streets of the city, pre-  
sumably for exercise.  
It is said that he never passed an  
American without according him  
some kind of recognition. Sometimes  
it was a military salute. Often it was  
merely a courteous inclination of the  
head or a friendly smile. But always

the old general extended some form  
of recognition to the American  
stranger within his city.  
That was five years ago, but the  
American officer still remembers,  
and continues to tell the story.  
Does the stranger who comes to  
our community, leave with the same  
impression of us?  
**Is War in The Blood?**  
Another noted Englishman comes  
to the front with the statement that  
Europe is on the brink of another  
war, and that "hell will be popping"  
again before we know it.  
Statesmen the world over are  
looking for another clash, and it is  
said that even peace loving Washing-  
ton is beginning to see the hand-  
writing on the wall.  
With Europe, staggering under  
mountains of debt, with commerce  
and industry struggling to raise its  
head, it would seem that war would  
be the last thing of which Europe  
would think.  
But it appears to be in the blood  
and that which is in the blood will  
invariably make itself known.

**Postmaster's Work**  
The postmasters of this country  
have become a recognized power in  
government finance, according to a  
statement issued today by Wm. B.  
Bosworth, government saving direc-  
tor for the seventh federal reserve  
district. Between January 1 and  
September 30 this year they sold for  
the federal government \$154,300,000  
worth of 4 percent U. S. Treasury  
Savings Certificates. This is an in-  
crease of thirty-four million dollars  
over sales made during the same  
period last year.  
"In the average sized town the  
postmaster holds a unique position,"  
said Mr. Bosworth, "for he knows  
most of his patrons personally. He  
knows when a man sells a piece of  
property. He knows when a widow  
receives life insurance funds. He  
knows when a farmer sells his crops  
or some live stock. He is not only in  
position to sell his patrons Treasury  
Certificates ranging in price from  
\$20.50 to \$4,100 but he can and does  
warn his patrons against wildcat  
stock salesmen that infest every  
prosperous community. In this way  
he helps banks and other legitimate  
financial institutions protect the sav-  
ings of people not accustomed to  
deal in investments."  
A box supper will be given by the  
members of the Junior class of the  
Arlington high school Saturday even-  
ing, October, 27, at the Arlington  
high school building.  
Look at our \$65.00 Combination  
range. Gunn Haydon. 18310

**Tom Sims Says**  
If everybody in the United States  
learned to play football we could  
chase the book agents ragged.  
Zappke, of Illinois, is a football  
coach even if he does sound like a  
foreigner asking for soup.  
Best football players come from  
the broad open spaces where men  
are men and women are girls.  
Learning football is no easy mat-  
ter. Arguing with traffic cops and  
ice men is fine training.  
Football players must be tough.  
They must be tough as cafe steaks.  
Eating cafe steaks will help them.  
Never feed a football player on  
raw meat. It is dangerous. He may  
bite off his girl's nose.  
Looking for needles in haystacks  
will train a football player's eyes to  
see the point.  
What's a little rouge between a  
girl and her football hero? Nothing,  
if it is on her lips.  
Footballers must know open field  
running. Dodging autos helps in this.  
Never stiff-arm a limousine.  
Every body should know football.  
A good football player can trip a  
collector and step in his face.  
Women should learn football. It  
would help in bargain counter  
rushes.

**FIFTEEN YEARS AGO TODAY**  
From The Daily Republican  
Monday, October 19, 1908  
The first annual Fall Horse Show  
will open tomorrow under ideal con-  
ditions and with everything pointing  
to a most successful show. Homer  
Powell, Dr. Davis, Sherm O'Neal  
and P. A. Miller is a quartette that  
by the sweat of their brows, will  
make the horse show a big success.  
A. T. Mahin and an able corps of  
assistants have made the town look  
like a Christmas tree, with hundreds  
of different colored electric light  
bulbs artistically arranged on wire  
streamers.  
Roy Steele, who was struck by a  
freight train while driving over the  
crossing at Milroy two weeks ago,  
will lose one of his feet as a result of  
the accident. The injury was not  
considered very serious at first, but  
has developed into blood poisoning.  
The foot was badly crushed and am-  
putation just below the knee will be  
necessary. He is confined at the  
Sexton sanitarium.  
The large barn on the farm of Har-  
rison Arbuckle, east of Homer, was  
destroyed by fire last night. All the  
animals were gotten out, but hay,  
corn and farming implements, to-  
gether with the building were de-  
stroyed by the flames. A loss of  
\$1,500 was incurred which was par-  
tially covered by insurance.  
A very peculiar robbery occurred  
early Sunday morning at the home  
of Lew Oneal, in North Morgan  
street. Burglars entered by the  
front door, which had been left open  
the night before and took several  
articles including a watch, \$5.70 in  
money and a few other small ar-  
ticles of little value. The post-climax  
came this morning when Mr. Oneal  
walked into the back yard and found  
lying under the grape arbor all the  
things which had been stolen, neatly  
tied up in a handkerchief.  
Miss Verlinda Zoble entertained  
Miss Margaret Yunker, Pearl Kel-  
ley, Mary Cauley, Susie Horr, Anna  
Geraghty, Theresa Madden, Ida and  
Dollie Cooning at her country home  
near Shelbyville Sunday.  
Mr. and Mrs. Walter Hubbard and  
son Ward will leave next Sunday for  
a week's visit at Tipton.  
Mert Wolcott, who is attending the  
Winona Technical school, spent Sat-  
urday and Sunday with his parents,  
Mr. and Mrs. F. E. Wolcott in North  
Perkins street.  
Will L. Newbold was in Indian-  
apolis today.  
Albert Fleehart has secured a po-  
sition in Seattle, Washington. He  
formerly worked in the Bodine shoe  
store.  
Mrs. Howard Barrett fell this  
morning on her back porch and sus-  
tained a painful injury to her nose.

**TAXES IN 1924 WILL BE LARGER**  
Continued from Page One  
which accounts in large part for  
the fact that the people of Rush  
county will have to pay more taxes  
next year.  
The appraised value of taxable

## GAME MADE EIGHT MINUTES SHORTER

New Basketball Rules Provide For Eight-Minute Quarters For High School Teams

### NO CHANGE FOR THE COLLEGES

Two Minute Rest Periods Between Quarters And 10 Minutes Between Halves

Under the basketball rules, effective among high schools in Indiana on November first, a copy of which has been received here, the game will be played in eight minutes less time than in former years, with the playing period divided into quarters of eight minutes each, instead of 20 minute halves, as formerly.

The rule on the length of the game applies only to secondary school, or high school, participated in by boys, and the regulation 20 minute halves will prevail in college and independent ball.

The length of the game also is changed for younger boys, under 14 years, who shall play their game with six minute quarters, with three minute rest between quarters and ten minute rest between the half way period.

Under the new rules, the eight minute quarters for high school teams, will no doubt meet with approval, because of the fact that it cuts off eight minutes of playing, and this will handicap many teams that are slow in starting their scoring machine, as 8 minutes would sometimes make a wide margin in the scores.

The new rules set out that the team shall rest two minutes between the first and second quarters, and no player is to leave the floor or to receive coaching during the rest period. At the end of the second quarter, the usual ten minute rest is held which is the half way mark in the game, and players may leave the floor. The play resumes again for eight minutes in the third quarter, and a two minute rest is called, and the game is then finished in the fourth quarter of eight minutes.

Under this plan the playing time will be only 32 minutes instead of the 40 minutes.

The ball goes back to the center of the floor for the toss up, at the beginning of each quarter. The visiting team has the choice of goals at the start of the game, and they exchange goals at the end of the second quarter, and not between quarters.

The rule that applies to personal fouls has been changed, and this rule is designed as follows: when a personal foul has been called, the player upon whom the foul was committed shall attempt the free throw or throws; but in case this player is so injured that he must leave the game, his substitute must attempt the free throw or throws. If the player who has been fouled is to leave the game by reason of disqualification or for any other cause except injury, he shall attempt the free throw or throws before leaving.

However, free throws for goal after technical fouls may be made by any player of the offended team. The throw for a foul goal shall be made within ten seconds after the ball has been placed upon the line by the referee. If the goal is made the ball shall be put in play at the center.

There is no change in the rule defining the ball out of bounds. The referee shall give the ball to the player nearest the ball, on the team opposite the one who last touched the ball as it was going out of bounds. In case the officials cannot determine who touched it last, he is to toss it up between two players.

Personal fouls are listed as follows: held, trip, charge or push an opponent, whether or not either player has possession of the ball. Block an opponent. Use unnecessary roughness. Charge in and make bodily contact with an opponent who is one of two opposing players having one or both hands on the ball. The penalty is two free throws for goal if the offense is committed on a player who is in his own goal zone, and who has possession of the ball, that is, when he has control of the ball through holding it or dribbling it; or if committed on a player outside his own goal zone who is in the act of throwing the ball.

One free throw for goal when the offense is committed under any other conditions and in case of a double foul only one free throw shall be awarded each team. A player who makes four personal fouls is auto-

### Premier American Jockey

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Oct. 18.—Opinion was widely divided before the American thoroughbred was picked to run against Papyrus, the English Derby winner, in the international championship race.

Many turfmen thought that My Own was the best three-year-old in the United States and should have been picked instead of Zev.

Many still think so, and if the British horse should win, they will always maintain that Papyrus did not beat the best American horse.

There were no doubts, however, as to the jockey who should have the mount on the American color-bearer.

When the race was first considered, the name of Earl Sande, a young establishment on the American rider in the country who could complete the combination of the best jockey and the best horse against the foreign invader.

Sande is the premier American jockey of the present day. \* \* Many qualified judges of racing are willing to allow his star to shine into the past and they regard him as being as good as Snapper Garrison, Tod Sloan and other great riders of yesterday.

He is the ace of the staff of jockeys riding for the Rancocas stable, the largest and biggest money-making establishment on the American track. Considering the average of first, second, third, etc., scored last year, Sande was sixth on the list of American riders, but he was the leading money winner of the year.

Modest, unassuming, clean living and possessing all of the qualifications of a great rider, Sande is the idol of the eastern tracks. He is wealthy and wise. He commands a huge salary from the Rancocas stable and when he is not up on one of Sinclair's mounts, he can almost name his own fee to ride for another stable.

Because the public has absolute confidence in his honesty and because he has an uncanny faculty of getting the most of horses, Sande

was automatically suspended on the fourth. Under other sections the referee has the right to disqualify a player on one foul, where roughness is used, or improper language or other terms employed by the player.

### CARTHAGE OPENS WITH WIN

High School Basketball Team Defeats Fortville, 25 To 20

The Carthage high school basketball team opened their season Wednesday night at Carthage with a victory over their opponents, the Fortville team, with the final count being 25 to 20.

Carthage held the advantage at the half way mark, 11 to 10. Fortville crowded them hard all of the way, but Carthage held a slight lead throughout the game. A big crowd was present for the opener. The Carthage second team also won from the Fortville second team in the curtain raiser.

The next game for Carthage will be played at Carthage October 26, when the Webb team will go up there for a game.

Iowa City, Ia.—Iowa was kept at scrimmage today in spite of injuries threatening regulars.

## BRITISH TRAINER PRAISES PAPYRUS

Basil Jarvis Says Good Horses Can Run Well on Dirt Track or Turf and Anyplace

### ENGLISH HORSE IS READY

Declares That The Animal Adjusts Himself Quickly to Strange Surroundings. Here

New York, Oct. 18.—"Good horses can run well any place, any time, on a dirt track or on the turf. Papyrus is a good horse. He isn't an Ormonde or a St. Simon. He is just a good colt. He shipped well from England and he trained fine here, and I expect him to be in top form for the big race."

With this general comment, Basil Jarvis, the young trainer of the English Derby winner, disposed of the stories that he feared his charge would be too hopelessly handicapped by strange conditions in the United States to do his best.

Difference in weather conditions and the change from the soft footing of the turf courses upon which he ran in England to the sun-baked hard clay of the Belmont track had been pointed out as handicaps which could not help but reduce the speed and endurance of the British thoroughbred.

"As far as weather has been concerned, we have not noticed that it affected Papyrus in the slightest. It was so hot when we first arrived that it was unpleasant for all of us, but when cooler weather came we found that we did not notice any great difference between condition here and in England," Jarvis said.

"We do not believe that the dirt track will throw Papyrus off form. The track was very hard when we first started to work him, but he took to it like it was perfectly natural, and I believe he will run the same way. The only doubts we have had was about the effect that new shoes would have on him, as we can't use the same kind of shoes that he wears on turf courses."

It has been observed in Papyrus that he adjusts himself very quickly to strange surroundings and he is so even tempered that he is not upset by many things that bother high-strung animals.

In the United States the practice prevails of running all races with the inner rail on the near side of the horse, that is, with the turns all being made to the left. In England most of the classics are run the other way, with the inner rail on the right side of the horse. It was suggested that this difference would also throw Papyrus off.

"It is true that most of the races in England have the turns to the right, but not all of them. Some courses have left turns and others right turns, and Papyrus has done his running both ways," Jarvis said.

### PAPYRUS IMPRESSES CROWD

British Champion Goes Mile And an Eighth in 1:51 2/5

Belmont Park Race Track, New York, Oct. 18.—The big test for Papyrus which was to be the determining contest for setting odds came today.

Although this was only a morning workout, a crowd of more than 1,000 persons, turf fans, from England and parts of the United States, was present to watch the English champion.

Papyrus went a mile and a furlong at a fast gallop and his work-out impressed the large group of turfmen who gathered around the clockers at the finish.

Papyrus went the mile in 1:38 2-5 and the mile and one eighth in 1:51 2-5, hard held. Donoghue was up and was riding as easy in the saddle as though for a canter. The crowd was enthusiastic over the showing. Up went Papyrus' stock a couple of points. Every one crowded around to see what Basil Jarvis, trainer, and Donoghue, all grins, had to say.

The liquor apparently was stored there by bootleggers who hoped the sanctuary would be immune from raids.

## TITULAR HOPES GET FIRST TEST

Eight Western Conference Teams Will Receive First Baptism Of Fire Saturday

### ALL BUT 2 OF BIG 10 TO PLAY

Mid-west Fans Will Center Attention On Ohio-Michigan - Illinois To Meet Iowa

Chicago, Oct. 18.—Western conference titular hopes of eight teams get their first real test Saturday when all but two big teams clash in conference games.

Mid-west fans will center their attention on Ann Arbor, Michigan, where Ohio-State and Michigan meet. Fresh from the sting of their defeat last in the dedicatory game for their new stadium, Ohio will trot on the field well pointed for Michigan. Michigan lacks ends and backs and so far has made only a mediocre showing compared with last season.

One of two strong conference teams will be eliminated when Illinois meets Iowa at Iowa City. Zupke followers again have hopes of a title and expect the Illini to win. Iowa's early season games showed the same powerful running attack of former years, however, and the Iowans will enter the lists favorites.

Chicago, with a wealth of material, has so far been a disappointment to Maroon followers. Against Northwestern Saturday they will find their test as the Purple is a vastly better team this season. Indiana won from Northwestern last week but did not out-play them. If Chicago gets into the form that a Stag-Built should display, the Maroons will be winners easily.

With a victory over Northwestern, the Indiana team will again play a formidable eleven in Wisconsin.

Minnesota and Purdue have non-conference games scheduled. Neither team should be in real difficulty Saturday as their opponents are not of Big Ten calibre. Minnesota meets North Dakota while Purdue plays Wabash.

Notre Dame will receive only three days practice before again travelling eastward to face another strong team in Princeton. The high degree of early season development showed by the fighting Irishmen against the Army, makes them slight favorites for their second invasion of the east. The two long trips may prove a deciding factor however.

## STOVE LEAGUE IS ALREADY AT WORK

Guesses On What Base Ball Managers Will Do Next Year And Plans For Winter Discussed

### GLEASON TO STAY IN THE GAME

New York, Oct. 18.—With the last pay checks and their "cut" of the world series money in their rolls, practically all of the Giant and Yankee players had departed from New York today. Most of them went home to widely scattered points.

John McGraw, manager of the Giants, announced that he would sail for Europe soon for his vacation and that he might pick out some spots for a tour proposed for his club.

Miller Huggins, manager of the champion Yankees, said he would return soon to Cincinnati and then would make a trip to Los Angeles. Both the Giants and the Yankees will train in California next spring according to reports.

Resignation of Kid Gleason as manager of the Chicago White Sox caused much speculation in baseball circles here. Gleason, it is thought, will remain in the American League and it would be no surprise to see him at the helm of the Detroit Tigers next year.

Frank Chance is said to be considering an offer to manage the Washington Senators; Lee Fohl is sure to go with the Boston Red Sox and the St. Louis Browns are said to be looking around for another manager.

Fred Mitchell is understood to be through as the pilot of the Boston Braves and George Burns, Cincinnati outfielder, is being mentioned as his successor.

## INDIANA READY TO TAKE ON WISCONSIN

I. U. Football Team Comes Out Of Its Scrap With Northwestern Without Injuries

### SAME LINEUP TO BE USED

Bloomington, Ind., Oct. 18.—The Indiana football team came out of its game with Northwestern at Indianapolis last Saturday without injuries and Coach "Navy Bill" Ingram has his scrapping Hoosiers on edge for the contest, with Wisconsin here Saturday. It is very likely that Ingram will send the same lineup against the Badgers that opened against the Purple. The big mentor appears to be better satisfied with the work of his men this week, although he has pointed out many rough spots to be smoother over before the Crimson meets the Badgers.

Are lights have been installed on Jordan Field and the Hoosiers are working until late in the night in preparation for Wisconsin. Ingram is continuing his policy of closed practices this week, working his men behind locked gates of Jordan Field.

Ingram's varsity eleven at the present time seems to be composed of Knoy and Bernoske, ends; Fisher and Reynolds, tackles; Springer and Mumby, guards; Capt. "Stew" Butler, center; Wilkens, quarter; Marks and Moomaw, halves; Sloate, full. Niness and Woodward, two strong ends, and "Red" Zaiser, tackle, also appear to be possible starters. Niness and Woodward have been kept on the bench by injuries since early in the season. Zaiser broke into the Northwestern game last Saturday, and his aggressive play was one of the features of Indiana's victory.

Athletic officials here are preparing for a record breaking crowd Saturday. The seating capacity of Jordan field has been increased from 7,500 to 10,000 by the addition of new bleachers on the south side. Arrangements for handling the crowds have been perfected and special sections for rooters, alumni, and coeds, have been assigned. The advance of seats is heavy.

### Midwest Grid Briefs

St. Louis, Mo.—The St. Louis University football team will play the Army at West Point October 4 next fall, it was announced today. The Billikens asked for the game, and word was received from the Army accepting the offer.

St. Louis, Mo.—The Washington U Bears left today for Norman, Okla., to play football with the Oklahoma Sooners. The team is crippled by the absence of Oseal Claypool, full back, and Clarence Albin, tackle both injured in the disastrous start against Brinnell last week.

Columbia, Mo.—Coach Gwynn Henry announced a tentative lineup for the Tigers game against St. Louis U. Saturday that will give all four backfield men their first varsity experience. A half dozen cripples on the squad will be taken on the trip to St. Louis.

Chicago.—Forward passing drill was given Chicago again today for the Northwestern game. Federal agents have joined with the University in efforts to stop ticket scalping this season.

Evanston, Ill.—Twenty six letters were given grid stars of former days at Northwestern in a rally held last night for the Chicago game.

Urbana, Ill.—Offensive held the attention of Illinois today as the final preparation for the Iowa game Saturday.

Madison, Wis.—Wisconsin worked hard on intricate plays today for their Big Ten opener with Indiana.

Lafayette, Ind.—Despite a drizzly rain Purdue spent a long practice session today for the Wabash game.

Minneapolis, Minn.—A new backfield combination worked out on the Minnesota team today as Coach Bill Spaulding tried to replace cripples.

Ann Arbor, Mich.—Michigan spent its time today behind closed gates.

### TWO KILLED IN ACCIDENT

Bloomington, Ind., Oct. 18.—An auto accident on a slippery hillside south of this city late last night cost the lives of Mrs. James Raines, 40, colored, and her one-year-old daughter. The car skidded to the side of the road and turned over an embankment. Mrs. Raines and daughter were crushed beneath the weight of the machine. They were enroute from their home in Hammond to visit relatives in Florida.

Flat, Mich. Quite naturally the unprecedented sale of Buick cars has intensified the four wheel brake discussion. What these brakes will do and what they will not do in comparison with brakes on rear wheels only, has unquestionably become the leading topic of motordom.

Over two months have passed since these brakes were brought out on the 1924 Buick models and, according to H. H. Bassett, President of the Company, never has an automotive engineering development been so generally accepted. Sales have exceeded all expectations in spite of the fact that the factory is working on a production schedule far in excess of any previous year.

Buick engineers experimented with four-wheel brakes even before they were adopted in Europe, where at present 75 percent of all cars have them," says Mr. Bassett, "while the present Buick system was subjected to hundreds of thousands of miles of road testing before finally approved. All this involved a tremendous outlay of time and money."

"The change from two-wheel brakes was inevitable in face of the fact that for twenty-five years engineers have been unable to perfect the latter, and the necessities of the present traffic situation," continues Mr. Bassett. "Average speeds of automobile driving have so increased in the last few years and traffic congestion has become such that brakes on four-wheels has become the only answer."

Three favorite questions of those who have not operated four-wheel brakes are these:

1. "Is there any difference in the feel?"
2. "Is the stopping smooth?"
3. "Is steering effected in turning corners?"

It seems to be now agreed that there is no very noticeable difference in manner of operation while probably the most pleasant surprise to those trying four-wheel brakes for the first time is the absence of jerk or jar in bringing the car to a standstill. As one critic aptly puts it—"The sensation is as though the whole car were stopping instead of the rear wheels alone."

As to the third question. Proponents urge that in mechanically operated brakes, such as the Buick, the brake shafts, by means of small universal joints, are free to move any way the wheels turn. Just as in most two-wheel brakes, compensators are employed to offset any tendency to distortion.

Advocates of four-wheel brakes declare that no constructive criticism has been forthcoming from opponents. As General Sales Manager Strong of Buick puts it: "all adverse comment consists of 'ifs'."

"If the four wheel brakes do not work properly."

"If they are not properly adjusted at the beginning."

"If they do not stay adjusted," etc.

"Why not condemn rear brakes by the same ifs?" "Why not condemn the motor car as impractical? If you should happen to run out of gasoline in the country? Or if you should happen to fall asleep at the wheel?"

## Society

The Advance Literary Club will be entertained Friday afternoon at the home of Mrs. Fannie Gray in North Perkins street. A very interesting program has been prepared for this meeting and all the members are cordially invited to attend.

The Bethany Girl's Class of the First Presbyterian church will be entertained Friday evening at seven o'clock at the home of Miss Mary Frances Spivey, 715 North Jackson street. Miss Ruth Allen will be the assisting hostess. All members are requested to be present.

Mrs. Sanford Moore was a delightful hostess Wednesday to the members of the Industrial Club, when eighteen members and two guests were entertained with an all day meeting. At the noon hour a pitch-in dinner was served cafeteria style and the afternoon was spent in quilting.

Mrs. Oscar Newhouse entertained the members of the Cross Country Club Wednesday afternoon at her home north of the city. An informal social afternoon was enjoyed by those present and a short program was given. Delicious refreshments were served to the guests by the hostess at the close of the afternoon.

Miss Irene Reardon entertained with a card party Wednesday evening at the home of her parents, Mr. and Mrs. John Reardon, in West First street. Thirty tables of euchre were in session during the evening and at the close of the card games dainty refreshments were served. The party was given for the benefit of the Catholic school fund.

The Willing Workers of the New Salem M. P. church held an all day meet Wednesday at the home of Mrs. Bert West, east of the city. At the noon hour a pitch-in dinner was served. In the afternoon a short program was given, of which Mrs. Nettie Brown was the leader, and a contest followed. The next meeting will be held at the home of Mrs. Frank Tilley, Nov. 14. At the close of the meeting, refreshments of ice cream and cake were served.

The members of the Psi Iota Xi sorority will give a charity card party next Thursday afternoon, October 25, at the Elks club rooms in East Second street. The games will begin at 2:15 o'clock and all those who are planning to make reservations for one or a group of tables, are requested to call phones 1615 or 1821 immediately, to make their reservations. A favor will be given to the winners of each table.

The Misses Elizabeth and Mildred Goodbar, while visiting in Lexington, Va., were the guests of honor at a party given by Mr. and Mrs. John Dixon during their visit there. Dancing and music furnished entertainment for the evening. The guests were the Misses Mildred Goodbar, Roly Goodbar, Louise Dixon, Ellen Dixon, Virginia Dixon, Sadie Coffey of Buena Vista, Va., Mildred and Elizabeth Goodbar, of this city, Alton Barger, Hunter Goodbar, Junior Dixon, Thomas Dixon, Gundy Goodbar, Buford Dixon, Robert Goodbar, Henry Montgomery, all of Lexington, Va.

## TOUR BEGINS TO BRING RESULTS

Continued From Page One

problem. He has repeatedly told his audiences—a crowd of 12,000 cheered him when he said it in Chicago last night—that the Hughes economic commission plan is the only sensible way to arrive at a reparations settlement. In his speech last night, he gave the big audience a detailed A. B. C. explanation of reparations—told them how the prosperity of the United States depended on a settlement; told them how the French policy, based on "the blindness of force and violence" would never succeed; told them that if France and Belgium would agree to the Hughes plan; and it was shown that Germany could pay more and would not "force her to pay."

He explained the whole problem as it has never before been explained to an American audience. Having created an understanding of the problem and of its bearing on American affairs, he doubtless has left behind him here a new interest in it. That is what is being counted on to make his work of lasting benefit to those American business men who will now try to get President Coolidge and Secretary Hughes to offer again to Europe, the Hughes plan of solution.

Lloyd George left this morning for Springfield, to visit the shrine of Abraham Lincoln there. Lincoln is one of the Welshman's heroes. Lloyd George had recovered from his indisposition caused by fatigue but it was decided, in view of his condition, to cut out of the rest of his program all social events that could possibly be dispensed with. Sir Alfred Cope, one of his personal representatives, will therefore precede the party from now on, revising the program in each town. Though Lloyd George's secretaries are besieged with inquiries from many cities concerning his intentions, it is impossible now to say with certainty what he will do and what he will omit in the towns yet to be visited. That will be arranged by Cope, beginning with the St. Louis program.

## MOVIES

### At Mystic On Friday

If it is fights that will lure one to the theatre, "The Three Buckaroos" is as enticing as a photoplay can be. Hardly has the introductory title faded out when things begin to happen. One first has a laugh—that's always a good tonic—when Dartigan is seen meandering down the countryside astride a decrepit, pot-bellied roan horse. Farther down the road, in Onyx, the nag and its rider move a typical "mad man" to jeers. That's where the tobacco is thrown into the composition. At this point the patron will take the kinks out of his spine and sit up and take notice. The bad man becomes at once identified in Dartigan's mind as "My man of Onyx!" and he will become identified as surely in the spectator's mind, for he and Dartigan mix things gloriously on more than one occasion. And he is not the villain, but one of the villain's henchmen. The villain has his day in court—only it isn't in court, and it is not his day. It's Dartigan's day.

Getting back to "My Man of Onyx," the pulses quicken and one's breath is almost stopped when Dartigan frustrates a stab in the back and engages the would-be assassin in a hand-to-hand encounter on the edge of a deep abyss; again when Dartigan leaps from his horse's back onto the Onyx person's back; again in a rocky, treacherous pass where nimble wits turn the tide of battle; again—but why continue. "The Three Buckaroos" will be presented Friday at the Mystic Theatre. It will be found a wonderful tonic for jaded nerves or fatigued minds.

### Good Picture At Princess

George Melford's latest Paramount picture production, "You Can't Fool Your Wife," which was shown for the first time at the Princess Theatre Wednesday was hailed as one of the best of the current season. It will remain until tonight.

Between manipulating deals in the stock market and making flying trips to and from Nassau in a flying boat, Lewis Stone, a featured player in the leading man's role is kept busy throughout the course of the picture. Leatrice Joy, also a featured player with Nita Naldi and Pauline Garon, plays the role of the confiding wife, who fancies, on superficial evidence supplied by her flirtatious husband, that her trust is misplaced. She unexpectedly effects a reunion with her husband thus bringing to a happy climax one of the most interesting and cleverly conceived picture stories ever seen on the screen of this theatre.

In support of the leading players is a splendid cast, including Paul McAllister, John Daly Murphy, Julia

Swayne Gordon, Tom Carrigan and Dan Pennell. The scenario was written by Waldemar Young. The picture is as thrilling as it is entertaining, and well worth seeing.

the constitution he said the rights guaranteed by the constitution had been broken and that he was prepared for a struggle if it became necessary.

Meuller's letter, while making no definite threat, firmly demanded a reply by eleven o'clock today stating "unquivocally" whether "the Saxon ministry as a whole identifies itself and is in agreement with the letter and spirit of Finance Minister Boettcher, or whether the Saxon government is willing to act against the utterances of Finance Minister Boettcher and in accordance with my instructions."

This letter was interpreted here and in Dresden as stripping the last vestige of covering from sheer military dictatorship throughout the country.

The general's demand was understood to be backed by the presence of fifteen battalions of troops under orders to march at his command.

No indication was seen of Saxony's willingness to yield.

Late reports from Dresden said the city was quiet. It was known, however, efforts were being made in some quarters to effect a compromise though how this might be brought about could not be foreseen.

Boettcher in his inflammatory speeches to which Mueller took exception declared that any attempts of the parties of the right to start a counter-revolution by political and economic attacks must be met by force.

The proletariat must be prepared to stand its baptism of fire, he said.

With President Ebert refusing the Socialist demands here to raise the state of siege proclaimed throughout the country and Meuller in a mood to spill blood in Saxony, the situation was considered the most tense that has confronted the Reich since it abandoned resistance in the Ruhr.

Socialists were extremely bitter again Herr Kahn, for denouncing democracy was "rufer-ship of the masses."

The scoff at federal rulings with impunity.

Boettcher's utterances, which were condemned as silly, were met by sabre-rattling in Berlin.

President Ebert, Chancellor Stresemann and Dictator Gessler approved the steps taken by Mueller, the government announced today.

The announcement was taken to mean the government was solidly backing the military and that it intended to force the Saxon reds to retreat from their radical assertions.

## Facts about Child-birth

AN eminent physician has shown to thousands of expectant mothers just how to be free from dread, and from much of the suffering which many mothers experience for months right up to the moment when the little one arrives! Mrs. Wm. Washington, 107 Louise Ave., Nashville, Tenn., says: "There is positively no woman on earth that would be without 'Mother's Friend' during expectancy if she only knew the value of comfort."

"Mother's Friend" is externally applied to the region of the abdomen, back and hips. It relieves the tension on nerves and ligaments as month follows month. Finally, it makes child-birth a joy instead of a painful dread.

Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradford Regulator Co., B.A.72, Atlanta, Ga., for a free wonderful book containing information every expectant mother should have. Get a bottle of "Mother's Friend" today. It is sold by all good druggists.

## THIS LITTLE BABY GIRL

Was Benefited by the Good Her Mother Got from Lydia E. Pinkham's Vegetable Compound

Pittsburgh, Pa.—"I took Lydia E. Pinkham's Vegetable Compound before my little girl was born and the effect it had was wonderful. This will be the first child I have nursed, as I had to bring my two boys up on the bottle. I was very nervous and after I read about the Vegetable Compound I tried it and kept on with it. I still continue its use and recommend it to my friends. You may publish these facts as a testimonial for your medicine."—Mrs. Wm. KLINGE, 163 Plymouth St., Pittsburgh, Pa.

It is remarkable how many cases have been reported similar to this one. Many mothers are left in a weakened and run-down condition after the birth of the child, and for such mothers the care of the baby is well-nigh impossible. Not only is it hard for the mother, but the child itself will indirectly suffer.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It can be taken in safety by the nursing mother.

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c

## TAKE CHILDREN FROM FATHER'S CUSTODY

Mrs. Edna L. Lockhart, Formerly Edna Hardin, And Her Father, Alleged to Have Aoted

## TROUBLE IN UNION COUNTY

Connersville, Ind., Oct. 12.—Considerable excitement occurred in the southwest part of Connersville township last Friday morning, according to reports received by the local officials, when Mrs. Edna L. Lockhart and her father, William Hardin, went to the Charles H. Myers home and to the Swamp schoolhouse to take possession of Mrs. Lockhart's four children. It was reported that Mr. Hardin was carrying a gun at the Myers home and at the schoolhouse. It also was reported that Mrs. Lockhart forced the doors of the school building and that she and her father took two of the children from the custody of Miss Barbara Lovejoy, teacher. The other two children were taken from the Myers home.

A conference was scheduled for this afternoon in the Fayette juvenile court at which an effort would be made by officials and the parents to make some definite arrangement regarding the custody of the children.

The father, Wesley Lockhart, is a son of Mrs. Myers, at whose home the children were staying at the time of the alleged disturbance. The family formerly resided in Connersville, but moved to Brownsville in Union county some time ago. Local officials have been informed that the Lockharts have a divorce suit pending in the Union circuit court.

William Hardin, father of Mrs. Lockhart, resides in Rushville.

## SEVENTEEN ARRESTED

Indianapolis, Ind., Oct. 12.—In a raid on three homes in one city block, police early today arrested seventeen persons and confiscated 56 gallons of white milk as evidence of the midnight drinking bout. ## WHAT MOTORIST WANTS A CAR WITHOUT PEP?

The best engine will use up its pep if not kept in condition. Little disarrangements soon make big ones, and big ones destroy cars. Repair bills can be kept down and engine pep can be maintained at the maximum if you come to us in time, the moment you notice a "tired feeling" on the part of your motor.

We make all kind of repairs on all makes of cars, and charge only moderate prices.

## TO FIGHT RULE OF MASKED MOB TRIALS

Macon, Georgia, to be Scene of  
Court Case Against Alleged  
Flogging Party

### NINE MEN UNDER ARREST

(By United Press)

Macon Ga., Oct. 18—Macon's fight against the rule of the lash by masked mobs in Bibb County will be resumed at the December session of City Court.

With nine men under arrest charged with flogging nearly a dozen citizens accused, tried and punished without a hearing at a midnight court held in the woods near here, the prosecution expects to prove responsibility for the series of floggings.

The first two trials met in reverses, but Roy Moore, city solicitor, is using the interval to strengthen his evidence against the alleged band of whippers.

Dr. C. A. Yarbrough, prominent dentist, charged with being the "whipping boss" of Macon, was acquitted at his first trial on a charge of rioting in connection with one flogging. A second trial a week later resulted in a mistrial, with the jury standing nine to three for conviction. Dr. Yarbrough still faces five other counts.

Macon for nearly a year has been terrorized by activities of floggers. One man, suffering from consumption, was severely beaten. Another time a man and a woman were kidnapped and the woman forced to look on while the floggers severely lashed her companion.

Persons were kidnapped from the streets by men who dashed about in automobiles and for a time the police were powerless.
